Isle of Palms Fire Department

Call Summary

April 2018

- 4/3/2018 Personnel responded to a report of a palm tree on fire on 53rd Avenue. Upon arrival, crews found a small fire caused by a landscape lamp that was located within pine straw at the base of the tree. Fire crews extinguished the fire and disconnected power to the lamp. The property manager was informed of what happened and informed that the location of the lamp was a hazard. All crews cleared from the scene and returned back to service.
- 4/4/2018 Personnel responded to a report of a fire inside of a dumpster located near Ocean Boulevard. Upon arrival, crews found a small fire inside of the receptacle. Personnel extinguished the fire but were unable to pinpoint the exact cause of the fire. All crews cleared from the scene and returned back to service.
- 4/7/2018 Personnel responded to a report of a drowning on the beach in the area of 25th Beach Access Path. Upon arrival crews found an unconscious victim that had been pulled ashore by a near-by surfer. CPR was performed and the AED utilized. Patient care was transferred to Charleston County EMS and the patient was transported to a local hospital.
- 4/18/2018 Personnel responded to a report of a structure fire on 34th Avenue. Upon arrival, crews learned that there was a small fire in the oven of the residence. It was found that the oven was new and the gas regulator was not properly working. Fire personnel shut off the gas and power to the oven. The area around the oven was checked for signs of heat signature and/or damage caused by the fire. No further issues were found. The home's occupants were informed to have the oven repaired or replaced prior to returning the gas and power to the unit. All crews cleared from the scene and returned back to service.
- 4/26/2018 Personnel responded to 1517 Palm Boulevard for a report of an electrical hazard. Upon arrival crews met with the business manager who explained that they could smell something burning and saw smoke coming from one of the air conditioning vents. All air conditioning units were turned off and inspected. One unit above the kitchen was found to have a locked-up fan motor which caused the unit to overheat. Power was secured to that single unit. The business manager was informed to leave the unit off until it was properly repaired or replaced. No other hazards were found. All units cleared from the scene and returned back to service.
