

## **PUBLIC SAFETY COMMITTEE**

5:00 p.m., Monday, April 9, 2018

The regular meeting of the Public Safety Committee was held at 5:00 p.m., Monday, April 8, 2018 in the City Hall Conference Room, 1207 Palm Boulevard, Isle of Palms, South Carolina. Attending the meeting were Councilmembers Bell and Ward, Chair Smith, Administrator Tucker, Fire Chief Graham, Police Chief Buckhannon, Attorney Halversen and City Clerk Copeland; a quorum was present to conduct business.

1. Chair Smith called the meeting to order and acknowledged that the press and public were duly notified of the meeting in accordance with the Freedom of Information Act.

### **2. Approval of Previous Meeting's Minutes**

**MOTION: Councilmember Bell moved to approve the minutes of the March 5, 2018 meeting as submitted; Chair Smith seconded and the motion PASSED UNANIMOUSLY.**

### **3. Citizens' Comments**

Rusty Williamson, 605 Carolina, expressed concern about the amount of money the City collects in fines. He was interested in knowing how much was sixty to ninety (60-90) days past due and about people who did not pay the fines at all. He wanted to know if the City was allowing persons with tickets to negotiate them down, and if so, he thought it was wrong. He wanted confirmation that the City was serious about collecting what it was due.

### **4. Old Business**

#### **A. Update on Coyote Management**

Chief Buckhannon informed the Committee that the third coyote has been trapped in one (1) of the soft leg traps on March 28<sup>th</sup>; he also reported that the Police Department had applied Too DNR for a permit to use the Collarum traps. The Collarum traps will be deployed as additions to the soft leg traps currently in place. Since members of Council have shown an interest off having a hunt, the Chief has done some research and learned that the City would need a permit from DNR to do it; in addition, he spoke with the City's insurance carrier who stated, with reasonable certainty, that a hunt would be uninsurable.

Captain Swain distributed a draft of a Coyote Management Plan for the Committee's consideration; he stated the he had taken language from the coyote management plans from Mount Pleasant, Tega Cay, Sullivan's Island and the Coyote Coalition.

Councilmember Bell asked that Captain Swain take this draft and to merge it with the plan from the Coyote Coalition; he said that he has spoken with a member of the coalition and asked that they soften the language in their plan to make it less frightening. He wanted Council to get the management plan for adoption by the City at the next meeting.

Chief Buckhannon asked the Committee to wait and to review the plan that was distributed and to delay any action giving the Department time to get a definite answer about the insurability and the legal status of a hunt. Staff will continue talking with Wild Dunes to find out what they will let

the City do inside the gates. The Chief was confident that the Department could get the answers in thirty (30) days.

Administrator Tucker stated that the draft from the Police Department would be included in the meeting packet for the Council meeting.

Captain Swain investigated the concept of paying a trapper per coyote trapped, and no one he talked to was willing to trap on the island on that basis. The Captain confirmed with Councilmember Bell that he spoke with the man who was at the Coyote Forum who told the Mayor and Councilmember Bell that he would trap, and the City would pay Mr. Covington per coyote trapped. Mr. Covington quoted Captain Swain a trap set fee was sixty dollars ((\$60) and billing the City three hundred to three hundred fifty dollars (\$300-\$350) for each coyote he trapped.

Currently the City is using Critter Control and they charge three hundred fifty dollars (\$350) per month, sixty dollars (\$60) per coyote and thirty dollars (\$30) for other animals trapped.

Chair Smith stated that she wanted three to five thousand dollars (\$3,000-\$5,000) earmarked in the FY19 budget for the services of a researcher to determine approximately how many coyotes are on the island to find out if the City should continue its trapping efforts.

Chief Buckhannon stated that Captain Swain spoke with the trapper in North Carolina who was so successful and learned that he was using the same kind of traps the City is using, and he was using bait like the City. He offered to come here to assist the City's trapper at a rate of two hundred dollars (\$200) per day.

## **B. Managed Beach Parking Plan**

2

### **1. Front Beach Traffic Management**

Chair Smith stated that she wants to find a way to have a better traffic flow on Front Beach that could be implemented for this beach season.

Captain Usry commented that this week was spring break and Monday and Tuesday were beautiful and warm days and Isle of Palms had traffic backups; when the County Park is full, traffic begins to back up into the intersection. The police reacted quickly and began to push people along to Ocean Boulevard; once on Ocean people slow down looking for a place to park; at that point Beach Services Officers are pulled off their job to push people along on Ocean Boulevard. The Captain stated that the City has spoken to DOT about making 14<sup>th</sup> Avenue one way to Ocean then to 10<sup>th</sup> Avenue as a possible way to improve the flow during the busy season. When the traffic begins to back up into the intersection, officers typically close 14<sup>th</sup> Avenue and force people to turn left or right as they come off the Connector.

As one (1) of the people monitoring and dealing with the traffic issues, Councilmember Bell asked Captain Usry, if she had unlimited funds and personnel, what she would do to deal with traffic issues on the island. She replied that, to be cost effective, the first thing she would do was to have two (2) lanes turn left and two (2) lanes turn right as vehicles come off the Connector and eliminate going straight across on 14<sup>th</sup> Avenue. The traffic backup created by people going to the County Park would then be on Ocean; to do this would require approval from SCDOT. With personnel and traffic control devices, this was something that could be tested a couple of times.

Chief Buckhannon offered that one (1) change that would make a positive difference would be for the County to relocate the entrance to the parking lot for the County Park further back on 14<sup>th</sup> Avenue away from Ocean Boulevard.

For the short term, Chair Smith asked what the Police Department would need to direct two (2) lanes of traffic to the right off the Connector, and, if it was additional personnel, would the City consider outsourcing traffic directing to a third party.

Administrator Tucker stated that, for major events where a large crowd of people was expected, the City of Charleston contracts a company to control and direct traffic; this could possibly work for the parking lots.

Captain Usry noted that the contract personnel could not direct traffic in the roadway because that was a responsibility for the Police Department. Contract personnel might be helpful in the parking lots to direct cars into the spaces.

Chief Graham commented that Charleston County Rescue frequently assists with traffic control for a donation which they use to buy equipment; she suggested that they might help the City for a fraction of the cost of a contractor.

Councilmember Bell said that he wanted a definition of what it would take to get it done, separate from worrying about the budget implications. He thought that the money could come from the fines and other traffic mechanisms to have additional money to fund these things.

Captain Usry confirmed that the Police Department has problems recruiting and keeping BSOs.

Chief Buckhannon thought the issue was that being a BSO was a seasonal part-time job, and people in the current economy in Charleston were looking for full time jobs. He opined that the City would continue to have problems filling part-time positions without benefits. He reported that, this year, the Department had initiated a program that people who have worked here before get a starting wage higher than the first-time employee.

From the Visioning meeting, Chair Smith recalled that installing overhead signage at the intersection at the foot of the Connector directing people to turn right had been discussed.

By way of clarification, Administrator Tucker stated that many people who come for a day on the beach are so fixated on their final destination that they do not realize that they can also get to their destination by turning right and then left. Some on Council suggested that, if SCDOT would allow for overhead signage, possibly more people would turn rather than go straight.

Councilmember Bell suggested that Council should seriously consider something that would provide more flexibility, such as electronic signage, that would be less labor intensive and solve the problem long-term.

Chief Buckhannon repeated that the biggest problem was the cars stacking up trying to get into the County Park even when spaces are available.

Captain Usry added that people will sit in their cars when the sign that the lot is full was put up; people who have purchased a gold pass were particularly bad about sitting because they believe that the pass includes space to park when they visit the parks.

Responding to Chair Smith, the Chief said that he did not think the City was charging enough for parking on Ocean Boulevard; the City wants those spaces to turn over, not parking for three or four (3 or 4) hours. People should not be allowed to park in the Front Beach spaces for more than two (2) hours. He suggested that, when people realize how much more parking on the street was than the lots, they would gravitate to the parking lots. When the cars stack up on Front Beach, the BSOs run from one car to the next; the enforcement would be easier if the City were to invest in Segways.

Chair Smith thought that the City should budget for more BSOs.

Councilmember Bell opined that the City should consider increasing the parking fines again and paid parking plans because the demand put on the island is not going to go down. He did not believe that hiring more BSOs would solve the problem.

Chief Buckhannon advised the Committee that, if they increase the parking fines, they should be prepared for negative press on the front end and the back. He stated that, when the rates go up, the three (3) local television stations will be on the island advertising the increase and the phone calls will start. On the back end, when the tickets are issued, the City will face irate people.

Councilmember Ward said that one (1) very important component was being overlooked, and it was the City employee in the window who takes the payments and gets the abuse from those irate drivers simply for doing her job.

The Administrator asked if regulations existed that would allow tickets to be issued if people do not keep moving, and Captain Usry said that they could be ticketed for blocking and obstructing.

Chief Buckhannon said that BSOs could not enforce that regulation, and the Department did not have enough officers to install one (1) at Front Beach. He also noted that, when an officer enforces that violation, he is stopping traffic.

---

4

## **2. Options to implement parallel parking in other areas of the island**

The Chair stated that this item was added to the Agenda based on the requests for parallel parking on the southern end of the island at the last Council meeting; she asked the Chief if it was feasible and whether it would be a safety improvement.

Chief Buckhannon replied that parallel parking was the safest way to park in his opinion.

Captain Usry stated that this would definitely be a traffic engineering issue because it would affect spaces, private property owners because of easements and property lines, and it would need Council approval and would have to go through the DOT approval process. She also said that there would be places along Palm that would not be wide enough to accommodate parallel parking.

Councilmember Ward remembered that Stantec had already measured the width of the rights-of-way on the island.

## **C. Update on micro-surfacing work on Palm Boulevard between 21<sup>st</sup> and 41<sup>st</sup>**

The information sent to the City stated that the contractor will begin full depth patching the week of April 23<sup>rd</sup>, assuming that the weather cooperates; the actual micro-surfacing will take place the

week of May 7<sup>th</sup> through 14<sup>th</sup>. The contractor is not recommending night work because of the noise and bright lights.

The Administrator has told SCDOT that they must not be working Memorial Day weekend.

**MOTION: Councilmember Bell moved to reorder the Agenda to consider item B under New Business at this point in the meeting; Chair Smith seconded and the motion PASSED UNANIMOUSLY.**

**5. New Business**

**B. Discussion of Enforcement of Parking and Speeding**

Chair Smith was aware that some residents have concerns about parking tickets being enforced, how they were enforced and whether or not there were loop-holes in City ordinances that need to be closed.

Councilmember Bell stated that people were well aware of a repeat offender at Front Beach who was ticketed many times and who paid fractional fines but no late fees. His question was what the City has that has allowed this situation to happen that other cities do not have; therefore, he looked at parking fines in other local municipalities. The offender was issued tickets totaling five thousand seven hundred fifty dollars (\$5,750) over a five (5) year period and has paid nine hundred seventy five dollars (\$975) but never paid a late fee. He recounted being at Front Beach with four (4) BSOs laughing while saying, "Call me the day you guys tow this man's car."

Chief Buckhannon said that whoever said that was "absolutely wrong;" he stated that, when he found out about the total of outstanding tickets this man had, his first words were, "Tow it." When the vehicle was illegally parked over the weekend, it was towed.

5

By parking in the loading zone, the delivery trucks were having to work around the car, and if a fire truck were called to one (1) of the businesses, it would not be able to get through.

According to Captain Usry, if a vehicle is creating a safety hazard, it can be towed. In her opinion, the problem with the ordinance was the impounding and immobilize; if immobilizing a vehicle would create a problem, as in a loading zone, officers need to be able to tow it immediately.

**MOTION: Councilmember Bell moved for staff to look at the ordinances of other municipalities that allow for a vehicle to be towed or impounded when it is blocking and is a public safety hazard in a way that is consistent with the wishes of the Police Department; Chair Smith seconded and the motion PASSED UNANIMOUSLY.**

The Administrator stated that according to the City's ordinance as it reads today is that a ticket does not toggle over to immobilization until it is ninety (90) days past due and it has to be more than one (1) ticket. The fact that late fees were not paid was an adjudication of the Court and out of the City's control.

**MOTION: Councilmember Bell moved to change the ninety (90) days in the ordinance to thirty (30) days to have more rapid adjudication; Councilmember Ward seconded and the motion PASSED UNANIMOUSLY.**

Chief Buckhannon stated that a feature has been added to the iPad for BSOs to notify them that the particular vehicle has "x" number of outstanding tickets and the dollar amount unpaid. A process has been established where the sergeant goes to the scene and the vehicle is either immobilized or towed.

Captain Usry stated that she would also like to see the toggle of three (3) or more unpaid tickets reduced to one (1).

Administrator Tucker noted that the Court sends out a massive amount of late notice letters.

Councilmember Ward stated that the notices of delinquent tickets should stop because the consequences of not paying in time are defined on the ticket.

The Administrator suggested that Attorney Halversen tighten up the parking ordinance rather than making several more motions.

Attorney Halversen indicated that she has already been looking at the ordinance and has other recommendations for changes and would have a draft at the Council meeting on Tuesday, April 24<sup>th</sup>.

Councilmember Bell complimented the Police Department on the fact that forty-one percent (41%) of all traffic stops in March were issued citations.

Captain Usry repeated that every traffic stop was issued a ticket; some were warnings and others were monetary citations.

Councilmember Bell continued that 37 mph was fifty percent (50%) over 25 mph. He opined that SCDOT did not set a 25 mph speed limit in residential neighborhoods for people to go 37 mph through them. He voiced concern over the speeding on Waterway Boulevard which more and more bicycles and pedestrians use frequently. He urged the Police Department "to ratchet down the speeding."

Councilmember Bell also offered to work with Captain Usry to compile a shorter and more concise and informative monthly report from the Police Department.

**A. Review of FY19 Fire and Police Department Budgets for addition and deletions to be considered at the April 11<sup>th</sup> Budget Workshop**

Chair Smith indicated that she had several items for the Committee to consider related to the budget, beginning with increasing the number of BSOs based on the traffic and parking issues on the island.

Councilmember Ward stated that he was opposed to hiring more BSOs because personnel costs account for eighty percent (80%) of the budget. He said that he might be more inclined to support it if Chief Buckhannon and Captain Usry were in favor.

Councilmember Bell said that he would like to know the level of participation by the City's police officers in the duties BSOs perform. He has heard complaints that officers drive by and do not enforce parking violations. As to the budget item for a full time BSO, the Councilmember opined that, in the off-season, the City has police officers to do what is assigned to BSOs during the tourist season.

Chief Buckhannon stated that the island's police officers are responding to four thousand (4,000) telephone calls a month and they are busy; the fact that they ride by a parking violation does not mean they are ignoring it. Many times they are going to a call or busy with some other police matter, and frequently they call in for a BSO to be dispatched to a certain place on the island to write a ticket.

According to the Chief, many of the off-season calls about parking are calls about vehicles not parking four feet (4 ft.) from the roadway, but the Rec Department does not lay down that white line in the off season.

The Chair asked whether a BSO was needed year-round or if the money would be better spent on an additional BSO in the beach season.

Captain Usry stated that having an extra during the beach season would be better.

Administrator Tucker noted that one (1) year-round BSO would be covering the entire island, not just Front Beach and Palm Boulevard. On the subject of hiring additional BSOs, she repeated that the Department has a difficult time hiring the ten (10) covered in the budget and the increased budget would create an artificial cushion.

Chief Buckhannon said that, if the City goes to a year-round parking plan, it would need someone to maintain signs that the BSOs are doing now during the season.

In the past couple of years, money left in the BSO budget at the end of the season has been used to pay a BSO to work part-time year-round, and signs are something he does.

The Chief and Captain agree that a full time BSO year round was not necessary, but they would like to see the BSO wages line increased to keep one (1) BSO part-time and year round.

Councilmember Bell thought that many of the things they were talking about could be self-funding if the fine amounts were increased; he repeated that he would like to see parking tickets go back to fifty dollars (\$50).

Additional benefits to having a full time BSO year-round would be the continuity of having someone with the responsibility of knowing the Code to be able to train the new BSOs hired, and this person would likely be more vested than a part-time person.

The Chair asked what twenty-five thousand dollars (\$25,000) in improvements would look like on the multi-use path on Waterway Boulevard.

If the Committee wanted improvements to the multi-use path, in the Administrator's opinion, the money would be better spent on hiring a consultant to come up with design recommendations.

Assistant Fragoso informed the Chair that the Public Works Committee has recommended funding for the engineering and design of the path on Waterway.

Chair Smith noted that she has brought up crosswalks on Waterway a couple of times, but has gotten little interest from this Committee.

Councilmember Bell stated that, until Council knows how it will pay for the big ticket items in the FY19 budget, the other stuff was not too interesting to him. He voiced doubt that the City could afford all that it has planned to do in the FY19 budget.

Captain Usry commented that crosswalks were for intersections; they could not be placed just anywhere.

The Chair did advocate for three to five thousand dollars (\$3,000-\$5,000) for an expert to get a count of the coyotes on the island, which she thought would be beneficial.

Councilmember Bell also thought a count would be helpful, but he thought that the City could reach out to one (1) of the state's colleges/universities for the job to be done as a research project at little or no cost to the City.

Ever mindful of mounting expenses facing the City, Councilmember Ward stated that he thought spending money on a coyote count should be the last consideration of the City.

The Committee's review of the FY19 budget started with those expenses in the Police Department operating budget that have changed since FY18. The first six (6) lines of the budget are wages with the merit and cost of living increases and associated benefits paid by the City; the same will be true in the Fire Department budget. Funds for the monthly coyote trapping fees and additional funding for coyote hunts or other activities as decided by Council has been increased for FY19..

Councilmember Bell stated that, once the City decided to have a hunt, it would eliminate monthly trapping.

Chief Buckhannon commented that, through his research he has learned that a hunt could wipe out the coyote population, but they would come back to the island and that time frame was unknown.

The Administrator stated that the areas where a hunt could take place were limited; therefore, the City might consider continuing to trap in the other areas of the island. She indicated that her goal was to provide Council with flexibility.

In the budget lines that indicate "see attached note," are other expenditures that have increased, such as the monthly wireless cards has gone up, as well as the data and phone cards in line H82. In cell H85, price increases include Enterpol annual maintenance, elevator maintenance, MDT Visinet charges, power DMS accreditation software subscription, and the addition of intrusion prevention service as mandated by Charleston County Consolidated Dispatch.

Councilmember Ward asked if the personal trainer that was discussed several years ago was still working with the Fire and Police Departments, and he was told that the training continues. The Councilmember then asked about the participation and whether the Department Managers thought that the activity was beneficial.

For both departments, the participation varies depending on the shifts, but it continued to be good, and Chief Graham and Captain Usry thought the activity was valuable for personnel.

Responding to the question about the trainer being on payroll, Councilmember Ward was told that he was paid as an instructor in the Recreation Department.

The details on cell H125 show an increase in the monthly radio fee from Charleston County and the addition of MDM management for mobile data terminals. In Cell H128 is the addition of one thousand dollars (\$1,000) for ESO medical software mandated by Charleston County Consolidated Dispatch.

Chief Graham explained that DHEC was mandating that the Fire Department change the way it reports, and all of the departments in the Charleston County Dispatch system are participating; therefore, the City will benefit from volume purchasing.

Moving on to the Capital Budget for the Police Department, the Administrator noted that five (5) police vehicles were scheduled for replacement in the FY19 budget as well as one (1) pickup for the BSOs. All of the Department's radios and walkies are scheduled for replacement in this budget from reserves, and the speed radar and trailer will be replaced. In addition in-car cameras are to be replaced, as are the seven (7) traffic counters at the Connector and Breach Inlet. Fifty percent (50%) of the cost to replace the roof of the Public Safety Building (PSB) has been re-budgeted in FY19 along with fifty percent (50%) of the repairs to the PSB per the Hill Report.

When Councilmember Bell asked if the Police Department had to replace all of its radios and walkies, both the Chief and Captain Usry answered in the affirmative. Captain Usry explained that the radios in use are no longer serviceable; if one (1) breaks, it cannot be repaired. The City hopes to be able to recycle some of their radios for use by the Public Works Department.

Councilmember Bell asked if the radios were handed off after each shift, and he was told that everyone has a radio that goes home with them at the end of a shift. When the inquiry was made about using cell phones in lieu of radios, Chief Buckhannon said that they could not be used with central dispatching.

The first item on the Fire Department's FY19 Capital Budget is the balance due on the seventy-five foot (75 ft.) ladder truck, followed by the in-vehicle radio replacements; both of which will be paid from reserve funds. Other purchases include the replacement of the Ford F150 truck, a thermal imaging camera, Porta-Count machine for SXB mask fitting (only with failure), the replacement of the Avon rubber boat and motor, RAD-57 medical monitor for carbon monoxide and oxygen (only with failure), the replacement of one all-terrain vehicle, the retainage on the PSB, replacement of the security locks on all the doors at FS2 to be consistent with PSB, relocate PSB generator from the roof to a raised platform on the ground, replacement of the OSB generator day tank, fifty percent (50%) of the cost to replace the roof at the PSB, fifty percent (50%) of the repairs to the PSB per the Hill Report, and repairs and maintenance to FS2 per the Hill Report. Assignments of fund balance for future purchases total five hundred sixty thousand six hundred sixty-seven dollars (\$560,667) for the replacement of twenty-eight (28) self-contained breathing apparatus in 2021 and for large vehicles.

Councilmember Ward stated that businesses on the island pay large sums of money in Hospitality Taxes, two percent (2%) of gross, and he indicated that he wanted to see those funds handled differently in the future. He said that he wants to see one (1) line in the budget that would make the businesses feel like the City was investing something back in them.

When looking at the Hospitality Fund, the Transfers-out to the General Fund are supporting personnel positions within the City, i.e. the Livability Officer, the part-time Animal Control Officer, patrol officers and firefighters.

State ATAX also supports personnel positions in the Police and Fire Departments as they can be justified.

Assistant Fragoso corrected a misunderstanding from earlier in the meeting in that the only tickets that were reduced to twenty five dollars (\$25) were those for no receipt displayed or expired meter; she also noted that a car parked illegally can get a ticket every two (2) hours.

**C. Consideration of RFB 2018-01 for new 75 ft. Ladder Truck**

Administrator Tucker stated that the down payment of two hundred thousand dollars (\$200,000) was in the FY18 budget, the balance for this particular truck would be in the FY19 budget, and bids have been received. The item on the Agenda is for the recommendation for an award of the contract. A discussion of escalating or delaying future savings for future apparatus could be part of the budget discussions at the Budget Workshop; she said that she did not understand that the Committee did not want to purchase the ladder truck scheduled for replacement in this budget cycle.

When Councilmember Ward asked if the plan was to buy another ladder truck next year, Chief Graham replied that the ninety-five foot (95 ft.) truck was scheduled for replacement in FY20.

Chief Graham stated that, according to the City's Procurement Code, the City went out for sealed bids and received bids from four (4) different manufacturers for six (6) different apparatus that were opened on March 27<sup>th</sup>. The lowest bid did not meet specifications. The recommendation is to award the contract to Safe Industries for the E-One stainless steel truck priced at eight hundred forty-nine thousand five hundred dollars (\$849,500); the price is over budget by nineteen thousand five hundred dollars (\$19,500). The recommendation is based on the safety factor and the maintenance after the sale.

10

**MOTION: Chair Smith moved to recommend to Ways and Means the award of a contract to Safe Industries for an E-One 75 ft. ladder truck in the amount of \$849,500; Councilmember Bell seconded.**

Councilmember Ward asked what the sources of funding would be, and the Administrator stated they would be the following:

FY18 Budget	\$200,000	reserves in Capital Projects, Muni ATAX, State ATAX
FY19 Budget	\$630,000	Capital Projects \$315,000
		Muni ATAX 157,500
		State ATAX 157,500

**VOTE: The motion PASSED UNANIMOUSLY.**

**D. Discussion of safety concerns related to location of benches at J.C. Long and Ocean Boulevard**

Councilmember Ward said that this item had come from business owners at Front Beach who think that, if a beer delivery truck were to be parked in front of The Windjammer and a fire truck needed to get down Ocean Boulevard, it could not make the turn onto Ocean because of the location of the benches and that they are bolted down.

Chief Graham said that they would do some measurements and calculations and report back next month.

## **6. Highlights on Departmental Reports**

Since the monthly report from the Police and Fire Departments are posted on the City's website, no synopsis will be included in the minutes

### **Update on 20<sup>th</sup> Avenue Crosswalk**

Captain Usry reported receiving a communication from Josh Johnson, the Regional Traffic Engineer for SCDOT about the 20<sup>th</sup> Avenue crosswalk saying that "The crosswalk is signed and marked appropriately. A crosswalk at this location would not be approved if requested today due to several factors. First this crossing is across a total of 3 lanes and a median, making it a long crossing with many conflict points with traffic. Secondly, this crosswalk is located less than 200 feet from a sharp curve and intersection providing its own challenges to drivers such as their focus is not on the possibility of a pedestrian entering the roadway. One option would be to remove this crosswalk to encourage the crossing at the 2 lane crosswalk located 250 feet west of 22<sup>nd</sup> Avenue or at the traffic signal located at 14<sup>th</sup> Avenue. The crosswalk west of 22<sup>nd</sup> Avenue is also near a curve, but being a 2 lane section making it much shorter crossing for the pedestrian and there is much less information for the driver to process at that location. The crosswalk at the traffic signal is, of course, the safest crossing point because the pedestrian signal can be activated." He knows that "here are several crosswalks that have been stamped and, as in the past, this type would be under an encroachment permit at the cost to the City, and, additionally, this would not be a location we would consider a pedestrian activated traffic signal due to its undesirable location and the alternative pedestrian routes to other crosswalks. This location is also not far enough away from 14<sup>th</sup> Avenue signal to allow any type of signal to stop traffic. The pedestrian crossing demand should be adequately served at the aforementioned crossings to the west and east with no real increase in walking distance."

Captain Usry stated that they were asking if the City would like them to remove the 20<sup>th</sup> Avenue crosswalk.

Chief Buckhannon explained that SCDOT basically wants crosswalks at an intersection not in the middle of a block.

## **7. Miscellaneous Business**

### **Discussion of traffic and parking work session**

The consensus of the Committee was to hold such a meeting after the budget was adopted.

Next Meeting Date:

## **8. Executive Session**

**Executive Session** in accordance with S.C. Code Section 30-4-70(a)(2) to receive legal advice regarding potential claims related to enforcement of parking violations

**MOTION:** Chair Smith moved to go into Executive Session in accordance with S.C. Code Section 30-4-70(a)(2) to receive legal advice regarding potential claims related to enforcement of parking violations at 7:30 p.m.; Councilmember Bell seconded and the motion PASSED UNANIMOUSLY.

The Committee returned to open session at 7:37 p.m. and Chair Smith announced that no action and no vote was taken in Executive Session.

**9. Adjournment**

**MOTION:** Chair Smith moved to adjourn the meeting at 7:38 p.m.; Councilmember Ward seconded and the motion PASSED UNANIMOUSLY.

Respectfully submitted:

Marie Copeland  
City Clerk

# **City of Isle of Palms, SC Coyote Management Plan**

**City of Isle of Palms, SC  
Coyote Management Plan**

## **Purpose**

The purpose of this plan is to provide a management strategy and guidelines for staff responses to conflicts with coyotes. Public safety is the City's primary concern and coyotes and other wildlife will be managed with human safety as the priority. The plan seeks to achieve a balance between the importance of human safety and the benefits of maintaining natural wildlife populations. While the City employs educational outreach tools as part of the program to manage human/coyote conflicts, the City recognizes there are situations where immediate control may be necessary.

## **Strategic Plan**

1. Create and implement an ongoing education program.
2. Provide information about the rights and responsibilities of private property owners.
3. Track and monitor coyote activity.

**Dangerous** - A coyote that has attacked a person, exhibits aggressive behavior towards a person and/or poses a significant threat to human safety.

### **General definitions:**

**Coexistence** - To exist together at the same time. Coexistence is not passive, but active on the person's part, including actions such as removing specific coyote habitats and employing hazing methods. It provides a mechanism by which persons obtain and maintain a level of knowledge and understanding of coyote ecology, behaviors and appropriate responses.

**Feeding of coyotes** - For educational purposes the following are definitions of the types and kinds of ways persons typically feed coyotes.

**Intentional feeding** - A person is actively and intentionally feeding coyotes. This category also includes intentionally providing food for animals that are in the coyote food chain, an example would be a bird or squirrel feeder.

**Unintentional feeding** - A person is unintentionally providing access to food. Examples are inappropriate composting, fruit from fruit trees left on the ground, pet food/water bowls, barbecue grills, sheds and house doors (garage) left open, etc.

**Unsecured trash** - Trash accessible to wildlife. Examples would be garbage cans, bags or dumpsters that are uncovered, open, overflowing or where trash is scattered outside the receptacle.

**Habitat** - Is a place where a coyote lives and grows and includes food, water, and shelter.

**Hazing** - Is an activity or series of activities that is conducted in an attempt to change the behaviors of habituated coyotes or to instill healthy fear of people back into the local coyote populations. It is not intended to physically damage the coyote, property or persons.

**Passive hazing** - Occurs without the presence of persons and includes methods used to discourage the presence of coyotes on one's property. This form may include but not be limited to motion activated devices such as sprinklers, spot lights or strobe lights, noisemakers, fence rollers, enclosed dog runs and electric fences.

**Active hazing** - Involves personal intervention by both physical presence and action. This may include but not be limited to yelling, clapping or waving one's arms to act threatening towards coyotes, as well as the use of devices including noise makers (air horns, whistles, rocks in cans), water from hoses or water guns, or rock/object throwing.

## **Hazing**

A main issue facing jurisdictions is that urban coyotes lose or have lost their fear of humans. Due to the coyote's nature they have easily adapted to urban living and combined with their lack of fear more coyote/human interactions and conflicts have arisen. One solution to this problem is to reinforce the coyote's fear of humans through the utilization of hazing techniques (see definitions). Animal Control will provide educational information to residents on hazing coyotes and suggested techniques.

## **Lethal Control**

The City of Isle of Palms Police Department may implement a program of lethal control when the interactions between persons and coyotes escalate to the level of incident or attack. The City of Isle of Palms Police Department will investigate to substantiate such reports of incidents/ attacks. Lethal control may be utilized when the City determines that a coyote(s) pose an immediate danger to persons. The City recognizes it may be difficult to identify the specific coyote that has become problematic and will take reasonable measures to direct lethal control measures toward the offending coyote.

If a person is being attacked or there is an imminent threat of attack on a person by a coyote, a police officer may act immediately to ensure public safety and remove the threat.

Simultaneous to implementation of lethal control and upon conclusion of lethal control measures a comprehensive awareness and education program will be undertaken by the City of Isle of Palms Police Department in the affected area.

**Public Spaces:** The City of Isle of Palms Police Department is responsible for the decision as to whether to use lethal control for nuisance wildlife in public spaces with public safety in mind.

**Private Property:** Property owners within the City of Isle of Palms may employ lawful methods to control nuisance wildlife on their property.

**Official Sealed Bid Opening**  
**RFB 2018-01 – New 75 ft. Ladder Truck**  
2:00 p.m., Tuesday, March 27, 2018

**Isle of Palms Fire Department**  
**Call Summary**  
*March 2018*

- 03/03/18 Personnel responded to a two (2) vehicle accident at Palm Boulevard and the Isle of Palms Connector. Fire crews provided medical care for one patient complaining of minor injuries. Both vehicles were inspected for potential hazards to the public or environment. No issues were found. All personnel cleared from the scene and returned back to service.
- 03/11/18 Personnel responded to a possible structure fire on Edgewater Alley. While en-route, crews were notified that the call originated due to a fire in an oven and that the residents advised that the fire was already extinguished. Fire crews arrived on scene and inspected the area for any heat indications or other hazards associated with the fire. No remaining hazards were found. All crews cleared from the scene and returned back to service.
- 03/14/18 Personnel responded to a water leak at a residence on J.C. Long Boulevard which was reported from a by-stander. Fire crews shut off the water at the meter located at the street. Attempts were made to contact the home-owner to inform them of what had occurred. All personnel cleared from the scene and returned back to service.
- 03/21/18 Personnel responded to an auto accident on 21<sup>st</sup> avenue. Upon arrival crews found a three wheeled motor scooter that had lost control and hit the curb. One patient was treated for injuries and transported to the hospital by Charleston County EMS. Fire crews inspected the area for additional hazards resulting from the accident. Once it was determined that there was no further need, all crews cleared from the scene and returned back to service.
- 03/25/18 Personnel responded to a possible structure fire on Grand Pavilion Boulevard. Dispatch notified responding personnel that there was a fire on the stove of the residence. Upon arrival, fire crews found that the fire had already been extinguished. Personnel investigated the area for heat indications and any other possible hazards resulting from the fire. No remaining hazards were found. All personnel cleared from the call and returned back to service.

To: MAYOR CARROLL, CITY COUNCIL and ADMINISTRATOR TUCKER  
Subject: MONTHLY REPORT MARCH 2018  
Date: April 2, 2018

The following is a synopsis of some of the activities of the Isle of Palms Police Department during the month of March.

## **Saturday, March 3**

### **Driving Under Suspension – 21<sup>st</sup> Avenue / Waterway Boulevard**

An officer stopped a vehicle for a seatbelt violation. Upon contacting the driver, it was determined that the driver's license was suspended for failure to maintain insurance. The driver was issued citations for the seatbelt violation, no proof of insurance, and driving under suspension with a court date in the Isle of Palms Municipal Court.

### **Narcotics Violation – 1100 Block Ocean Boulevard**

Officers went to a local restaurant to locate an employee with whom our Department had five (5) active arrest warrants. The officers were able to locate the subject, serve the warrants and place him under arrest. During a search of his person incident to the arrest, officers found approximately 4 grams of cocaine and 1 gram of marijuana. Officers obtained an additional arrest warrant for the cocaine and issued a citation for the marijuana. The subject was transported to the Al Cannon Detention Center.

### **Traffic Offense / Simple Possession of Marijuana – 39<sup>th</sup> Avenue / Palm Boulevard**

An officer stopped a vehicle for an equipment violation. Upon contacting the driver, the officer could smell a strong odor of marijuana emitting from the vehicle. When asked, the driver admitted to having the marijuana in the trunk of this vehicle. The driver was arrested and issued a citation for simple possession of marijuana with a court date in the Isle of Palms Municipal Court. The officer recovered approximately 14 grams of marijuana, along with various drug paraphernalia items that were logged into evidence.

## **Sunday, March 4**

### **Burglary – Ocean Park Court**

A victim reported that an unknown person stole household items from the owner's closet of their rental property. The victim indicated that they had a construction company completing renovations during the time the items were possibly stolen. The officer noted that there were pry marks on the owner's closet door. The approximate value of the items stolen is \$950. This case has been assigned to CID for further investigation.

### **Monday, March 5**

#### **Driving Under Suspension** – Palm Boulevard / 3<sup>rd</sup> Avenue

An officer on night shift patrol observed a suspicious vehicle sitting in front of a home with its lights on and upon checking the vehicle license plate, determined that it was suspended for cancellation of insurance. As the vehicle drove away, the officer conducted a traffic stop for the vehicle license violation. Contact with the driver determined that he was an Uber driver and that his driver's license was suspended for cancellation of insurance. The driver was issued a citation for driving under suspension with a court date in the Isle of Palms Municipal Court.

### **Tuesday, March 6**

#### **Driving Under Suspension** – Palm Boulevard / 51<sup>st</sup> Avenue

An officer stopped a vehicle for an equipment violation. Contact with the driver determined that his driver's license was suspended for not paying his reinstatement fees to SCDMV. The driver was issued a citation for driving under the influence with a court date in the Isle of Palms Municipal Court.

### **Friday, March 9**

#### **Sexual Assault** – 700 Block Carolina Boulevard

A victim reported that while in town, she met a male subject who was also in town visiting. At some point, after the both subjects consumed alcohol, they returned to the residence where the male subject was staying. After the victim returned to her home out of state, she reported that she had been sexually assaulted. This case has been assigned to CID for further investigation.

### **Saturday, March 10**

#### **Simple Possession of Marijuana** – Ocean Boulevard / Pavilion Drive

An officer while on patrol during night shift observed subjects sitting inside a vehicle and got to ensure everything was okay with the individuals. While speaking with them, the officer observed a strong odor of marijuana emitting from the vehicle. The owner of the vehicle admitted to having marijuana in his vehicle. The officer recovered approximately 1 gram of marijuana, which was logged into evidence. The owner of the vehicle was issued a citation with a court date in the Isle of Palms Municipal Court.

### **Monday, March 12**

#### **Theft from Buildings** – Sandcrab Court

A victim reported that she evicted a couple who had been staying in her rental property. Upon having the property manager check the residence after they had left, it was discovered that the couple had taken several pieces of furniture that belonged to the victim. In addition to the furniture, the victim had given the couple money to make upgrades to the kitchen cabinets, which had not been done, but the check had been deposited. The approximate value of the items and monies stolen from the victim is \$8,800. This case has been assigned to CID for further investigation.

### **Wednesday, March 14**

#### **Disorderly Conduct** – 7000 Block Palmetto Drive

Officers responded to a 9-1-1 call where a male subject reported that someone was trying to kill him. Upon their arrival, officers were not able to immediately identify the location of the subject calling due to misinformation from him. Officers were able to locate the subject and during their interaction with him it was evident he was under the influence and would not comply with their instructions. The subject increasingly became more aggressive and as officers attempted to detain the subject, he became combative, with officers having to deploy their Taser to finally get the subject into handcuffs. The subject was charged with disorderly conduct and admitted to eating “gummies with marijuana” and drinking. The subject was transported to a local hospital due to his extreme behavior.

#### **Driving Under Suspension** – Cameron Boulevard / 24<sup>th</sup> Avenue

An officer stopped a vehicle for an expired vehicle registration. Contact with the driver determined that her driver’s license was suspended for non-payment of a citation from November 2017. The driver was issued citations for driving under suspension and expired vehicle registration with a court date in the Isle of Palms Municipal Court.

### **Friday, March 16**

#### **Driving Under Suspension** – Palm Boulevard / 5<sup>th</sup> Avenue

An officer stopped a vehicle for passing on the double yellow line. Contact with the driver determined that his driver’s license was suspended for failure to maintain insurance. The driver was issued a citation for driving under suspension with a court date in the Isle of Palms Municipal Court.

#### **Traffic Stop / Warrant Arrest** – Palmetto Drive / Oyster Row

An officer stopped a vehicle for speeding, 37MPH in a posted 25MPH speed zone. Contact with the driver determined that he had an active arrest warrant for contempt of court / narcotics violation with Charleston County Sheriff’s Office. The warrant was confirmed, the subject was arrested and released to a Deputy with the Sheriff’s Office.

#### **Disorderly Conduct** – Fairway Village Lane

An officer on night shift patrol observed a vehicle that was running, but left unattended. A male subject was located and denied ownership of the vehicle, but while the officer was speaking with him, determined that he was very intoxicated. The subject walked away and entered a residence, which was determined to be where he had been working as a caterer. The subject continued to be uncooperative with the officer who was trying to get him home safely. The subject was ultimately arrested for disorderly conduct and transported to the Al Cannon Detention Center.

### **Sunday, March 18**

#### **Driving Under the Influence** – IOP Connector

An officer stopped a vehicle for multiple moving violations. Contact with the driver determined that he was possibly under the influence. When asked how much he had to drink, the driver replied, “not much at all.” The officer asked the driver to complete the Standardized Field Sobriety Tests and upon completion was placed under arrest. The driver was transported to the Al Cannon Detention for Datamaster testing, where the driver refused to provide a breath sample. The driver was lodged in the Detention Center.

### Wednesday, March 21

#### Warrant Arrest – 1000 Block Ocean Boulevard

Officers responded to a report of a suspicious person at a local hotel. Officers located the subject who said that he had checked out of the hotel in the morning and had been waiting on his ride all day. A check of the subject's information through NCIC found that he had an outstanding arrest warrant with Berkeley County Sheriff's Office for unpaid child support. The subject was arrested and transferred to Berkeley County Sheriff's Deputy. The subject was placed on trespass notice from the local hotel.

### Saturday, March 24

#### Simple Possession of Marijuana – Ocean Boulevard / JC Long Boulevard

An officer on night shift observed subjects sitting in a parking space and got out to check their status, noticing the driver slumped over sleeping. Contact with the occupants found that there was a strong odor of marijuana emitting from inside the vehicle. A search of the vehicle discovered approximately .9 grams of marijuana in the pocket of one of the occupants, who was issued a citation with a court date in the Isle of Palms Municipal Court.

### Sunday, March 25

#### Narcotics Violation – Ocean Boulevard / Pavilion Drive

An officer on night shift observed subjects sitting in a parking space with the motor running and the passenger appeared to be slumped over. The officer got out to check on their status and saw on the back seat an open bottle of vodka and could smell the odor of marijuana emitting from the vehicle. A search of the vehicle and subjects found 18.10 grams of methamphetamine, .7 grams of marijuana and drug paraphernalia. The occupants were arrested and charged with simple possession of marijuana, unlawful possession of drug paraphernalia, unlawful possession of broken seal on liquor bottle, and trafficking methamphetamine. Both subjects were transported to the Al Cannon Detention Center. It should be noted that the next day a delayed NCIC hit was received on one of the occupants for strong armed robbery out of York County. We contacted them to advise that the subject was lodged in the Detention Center. York County advised that he was a known gang member with the Folk Nation and was violent and dangerous.

#### Medical Assist / Overdose – 26<sup>th</sup> Avenue

Officers responded to a report of a subject who had possibly overdosed. Officers determined that the subject was locked in the bathroom and was not responsive. Officers forced entry and found the subject unresponsive on the floor and allowed IOPFD and CCEMS to begin medical attention. The subject was pronounced deceased and the coroner's office was notified to respond. CID was called out to assist and obtained a search warrant, where they located drug paraphernalia and what is believed to be heroine, but will be confirmed after laboratory testing.

#### Disorderly Conduct – JC Long Boulevard

An officer responded to a collision that had occurred on private property where the vehicle struck a tree and then left the area. After approximately 30 minutes, the officer was able to locate the subjects involved based on witness descriptions at a local establishment. The female subject admitted to driving the vehicle and appeared to be under the influence. Due to the elapsed time, she was arrested for leaving the scene of an accident and public intoxication. She was transported to the Al Cannon Detention Center. The male subject, who had been in the car with her, initially denied knowing her and

refused to cooperate when asked for identification was issued a citation for hindering with a court date in the Isle of Palms Municipal Court.

#### **Tuesday, March 27**

##### **Driving Under Suspension** – Palm Boulevard / 28<sup>th</sup> Avenue

An officer stopped a vehicle for having an expired vehicle license plate. Contact with the driver found that the driver's license was also suspended and that he had two unpaid traffic citations. The driver was issued citations for driving under suspension, failure to pay citation – 2 counts, and expired vehicle license with a court date in the Isle of Palms Municipal Court.

#### **Wednesday, March 28**

##### **Grand Larceny** – 3700 Block Cameron Boulevard

A victim reported that he had taken his watch off while cleaning around the pool pump, left it sitting on the table and went to lunch. When he returned, the watch was missing and he was able to provide information on a suspect. The approximate value of the stolen watch is \$12,000. This case has been assigned to CID for further investigation.

#### **Saturday, March 31**

##### **Simple Possession of Marijuana** – 12<sup>th</sup> Avenue / Palm Boulevard

An officer stopped a vehicle for an equipment violation. During contact with the driver, the officer smelled a strong odor of marijuana emitting from within the vehicle. When asked, the driver admitted to having marijuana and drug paraphernalia in the center console, along with his handgun for which he possessed a valid concealed weapons permit. The officer seized approximately 1.6 grams of marijuana and the paraphernalia. The driver was issued citations for simple possession of marijuana and unlawful possession of drug paraphernalia with a court date in the Isle of Palms Municipal Court.

#### **Community Service Activities / Notable Mentions**

During the month of March 2018, Officers issued one hundred four (104) "Property Security Check Notices" and twenty-three (23) "You Could Have Been a Victim of a Crime" notices.

March 3 – FTO James Taylor assisted a citizen from Walterboro, SC with the installation, inspection and education of a child safety seat.

March 3 – FTO James Taylor assisted a citizen from Charlotte, NC with the installation, inspection and education of a child safety seat.

March 7 – Ptl Thomas Molino assisted with the Keenagers monthly meeting at the IOP Recreation Department.

March 15 – Ptl Thomas Molino and Detective Louise Hardy participated in reading buddies with our Cops & Kids program at the IOP Recreation Department.

March 31 – FTO Dylan Reynolds assisted a citizen from Mount Pleasant, SC with the installation, inspection and education of a child safety seat.

# Isle of Palms Police Department

## Criminal Investigations Division

### Monthly Report

March 2018

#### **CASES ASSIGNED TO INVESTIGATORS**

Cases Assigned: 7	Investigations Carried Over: 11
Cases Closed: 5	Investigations Continuing: 13

#### **BREAKDOWN OF INVESTIGATION CLEARANCE**

Cleared by Arrest: 1	Exceptionally Cleared: 0
Unfounded: 0	Administratively Closed: 4

#### **\*\*Incident / Investigation Status Indicators (CALEA 42.1.3)\*\***

*"Active" – The case is assigned to an investigator and investigative efforts are active and ongoing.*

*"Cleared by Arrest" – (Closed) The case has been cleared by the arrest of the offender(s).*

*"Unfounded" – The offense described did not occur or occurred in another jurisdiction.*

*"Exceptionally Cleared" – (Closed) The case has been cleared due to offender death, lack of prosecution, denied extradition, victim declining prosecution, or offender was a juvenile (no custody).*

*"Administratively Closed" – (Non-criminal incident or investigation suspended) All available leads have been exhausted, but the case has not been brought to a conclusion, and investigative efforts may be resumed if new evidence or leads are discovered at a later date.*

#### **Administrative:**

- CID members attended Compstat, CID Review and Roll Call Briefing with Squads
- Det. Sgt. Baldrick covered 52 hours as Patrol Supervisor. Additionally, Detectives Forsythe and Hardy worked a combines 102 hours on Patrol.
- CID personnel attended training for Hazmat Exposure, NARCAN, Fair and Impartial Policing and Investigations.
- Det. Hardy, Det. Tarr and Det. Sgt. Baldrick assisted the Recreation Dept. Staff with stuffing bags for the Easter Egg Hunt
- Det. Hardy attended Kids and Cops, as well as the Egg Hunt.

#### **Court Proceedings:**

- Preliminary Hearings 2
- Grand Jury 1
- Municipal Court 2

#### **Victim Services:**

Victim Advocate Det. Tarr sent out 8 Victim Letters during the month of March

#### **CID Call Outs:**

Det. Tarr responded to a reported sexual assault on March 11, and Det. Sgt. Baldrick responded, along with Det. Forsythe, to a suspicious death on March 25.
