**WAYS AND MEANS COMMITTEE
6:00pm, Tuesday, February 18, 2020
City Hall Council Chambers
1207 Palm Boulevard, Isle of Palms, SC**

MINUTES

1. Call to order

Present: Council members Pounds, Smith, Bell, Buckhannon, Ward, Moye, Streetman, Popson, and Mayor Carroll

Staff Present: Administrator Fragoso, Asst. Administrator Hanna, Treasurer Suggs, Attorney Copeland, various department heads

2. Approval of previous meeting's minutes – January 21, 2020

Mayor Carroll made a motion to approve the minutes of the January 21, 2020 Ways & Means Committee meeting, and Council Member Bell seconded the motion. The minutes passed unanimously.

3. Citizens' Comments – none

4. Financial Statements – Treasurer Suggs

Treasurer Suggs reported that 51% of the General Fund has been collected and 53% has been expended to date. Currently, the budget revenues are forecasted to be \$22,000 below budget, but that change in the remaining four months of the year. She noted that while tourism revenues appear to be 2% ahead of this time last year, they would be 4% higher if the County could realize the taxes it is owed by AirBNB rentals.

Treasurer Suggs reviewed the few expenses on both the Phase III Drainage and Public Safety Building Rehabilitation project worksheets.

Committee members and staff briefly discussed City policy around auditing the reported income of business license holders.

5. Old Business – none

6. New Business

MOTION: Council Member Pounds made a motion to reorder the items under New Business so the discussion of the contract for the Public Safety Building rehabilitation could be discussed first. Council Member Bell seconded the motion. The motion passed unanimously.

A. Consideration of recommendation from the Real Property Committee to award a contract in the amount of \$5,256,159 to Trident Construction for the third phase of the Public Safety Building repair project.

Chris Burrell of Trident Construction and Arnie McClure of Design Build came before the Committee to present the option recommended by the Real Property Committee to bring the project under budget. The final decision of whether or not to move forward with the plan for the enhanced entrance will be determined a few months into the project and will be based on the status of the builder's and City's built-in contingencies. The builder will notify the City of when a final decision needs to be made. Council members agreed that it is important to use the high performance coating on the steel in the apparatus bays.

MOTION: Council Member Buckhannon made a motion to approve, and Council Member Bell seconded the motion.

Council members asked about a warranty related to the high performance coating. Both Mr. Burrell and Mr. McClure said such a warranty would be at significant cost to the City. However, Mr. Burrell said he believed it could last 10-15 years.

VOTE: The motion passed unanimously.

B. Consideration of recommendation from the Public Safety Committee for an award of a contract to Munnerlyn Pyrotechnics in the amount of \$25,000 for the July 4, 2020 fireworks show

Administrator Fragoso said that only one response to the RFP for the July 4 fireworks show was received, and it was submitted by the company that has done the show for the past several years. Staff has been pleased with their service in the past and recommends the contract be awarded with them with an option to renew.

MOTION: Council Member Moye made a motion to approve, and Council Member Buckhannon seconded the motion.

Council Member Smith expressed concern about the beach cleanup required following a fireworks show.

VOTE: The motion passed unanimously.

C. Consideration of recommendation from the Public Works Committee of a five (5) year renewal of the beach garbage collection contract to JLG Enterprise

MOTION: Mayor Carroll made a motion to approve, and Council Member Smith seconded the motion.

Administrator Fragoso gave a brief review of the history of the contract with JLG Enterprise and their schedule of pickups. She said staff is very pleased with the service and response from this contractor and recommends "the City approves the five-year extension that was left on the original contract" with the same scope of work. Council Member Smith added the contract will

include flexibility with regards to beach recycling pickup. Administrator Fragoso noted the contact is paid for with State and Municipal ATAX funds and comes to approximately \$101,000.

VOTE: The motion passed unanimously.

D. Consideration of recommendation from ATAX of sponsorship request from the City of Isle of Palms in the amount of \$2,000 for the purchase of reusable bags for visitors to encourage beach cleanup while visiting the IOP beach.

MOTION: Council Member Moye made a motion to approve, and Council Member Smith seconded the motion.

Administrator Fragoso said this request is to purchase reusable bags as a free gift to visitors signing up for the City's newsletter to encourage them to clean up the beach. She said this is part of the education campaign the City is working on in conjunction with the Charleston Visitors Bureau and the Town of Sullivan's Island to notify visitors and residents of the new clean beach laws. Bags will be available at City Hall, the Recreation Center, and Public Safety. Administrator Fragoso said she will provide additional bulk pricing information to City Council next week to determine if more bags should be purchased at this time.

VOTE: The motion passed unanimously.

E. Consideration of recommendation from ATAX of sponsorship request from Lucky Dog Publishing in the amount of \$4,000 for advertising new beach rules in *SIP* magazine and *Island Eye News* paper

MOTION: Council Member Moye made a motion to approve and Council Member Smith seconded the motion.

Administrator Fragoso said this advertising in both *SIP* and *the Island Eye News* is also part of the City's public education campaign about the new clean beach laws. Council Member Popson requested clarification on the size and number of ads to be run in the *Island Eye News*. Mayor Carroll would like extra copies of *SIP* to be available in rental homes across the island.

VOTE: The motion passed unanimously.

F. Consideration of recommendation from the Real Property Committee to extend the parking agreement with The Palms Hotel for the use of the municipal parking lot and include provisions for automatic renewal and to adjust rates as determined by Council

MOTION: Council Member Bell made a motion to approve, and Council Member Buckhannon seconded the motion.

Administrator Fragoso gave a brief history of how the agreement with The Palms Hotel has worked in the past. She said they understand there is no guarantee of parking availability and that City Council could adjust the parking rates. She indicated the agreement with The Palms works well, generating \$106,000 for the City last year, and the staff recommends the contract extension and automatic renewal.

VOTE: The motion passed unanimously.

G. Consideration of recommendation from Real Property Committee to approve an amount not to exceed \$15,000 for the installation of a pervious patio area behind the public restroom on front beach

MOTION: Council Member Smith made a motion to approve, and Council Member Buckhannon seconded the motion.

Administrator Fragoso described the project to beautify this area in its entirety to the Committee. She said this recommendation is for the paving and the Real Property Committee recommends the cost up to \$15,000. Staff is currently collecting quotes for the paving. She anticipates the project will be complete by the start of the beach season. Mayor Carroll asked if neighboring businesses had been notified about the project, and Administrator Fragoso said she would reach out to them.

VOTE: A vote was taken as follows:

Ayes: Popson, Streetman, Moye, Ward, Buckhannon, Bell, Smith, Pounds

Nays: Carroll

Mayor Carroll indicated he voted in the negative because the surrounding neighbors had not yet been notified.

H. Report on budgeted replacement of HVAC unit for Recreation Center Offices pursuant to §1-10-3(c) of the Code of Ordinances

Administrator Fragoso said, "This is a report only. According to the Code, if there are any expenditures made over \$10,000 and under \$25,000 that are budgeted, I just let you all know. For the Recreation Center, we had to replace some HVAC units that was a cost of \$12,000. We have a number in the budget just in case only with failure, so some of them did fail, and this is just a report on those expenditures."

I. Update on FY21 Budget

Council Member Pounds gave a brief overview of the February 12 Budget Workshop. He reported that Treasurer Suggs had completed a first draft that he and Administrator Fragoso are reviewing. The next budget workshop will be Thursday, March 12, 2020 from 4-6pm.

7. Miscellaneous Business

The next meeting of the Ways & Means Committee will be on Tuesday, March 17, 2020 at 5pm.

8. Executive Session – Executive Session pursuant to §30-4-70(a)(2) to receive legal advice related to a proposed civil settlement from Johnathan Gandolfo. Council may take action on matters discussed in Executive Session upon returning from Executive Session.

Council Member Moye made a motion to move into Executive Session and Council Member Popson seconded the motion. The motion passed unanimously.

The Ways & Means Committee went off record at 7:08pm and returned from Executive Session at 7:25pm. Council Member Pounds reported that no decisions were made during Executive Session.

MOTION: Council Member Bell made a motion to “reject the offer and maintain the City’s position that this is an historic tree and stand by prior decisions.” Council Member Streetman seconded the motion. The motion passed unanimously.

9. Adjournment

Council Member Buckhannon made a motion to adjourn, and Council Member Moye seconded the motion. The meeting was adjourned at 7:26pm.

Respectfully submitted,

Nicole DeNeane
City Clerk

**Special Ways & Means Committee Meeting
Budget Workshop #2
4:00pm, Thursday, March 12, 2020
Recreation Center
24 28th Avenue, Isle of Palms, SC**

MINUTES

1. Call to Order

Present: Council members Pounds, Smith, Popson, Bell, Ward, Buckhannon, Moye, and Streetman, Mayor Carroll

Staff Present: Administrator Fragoso, Treasurer Suggs, various City Department heads

2. Purpose – Discussion of the FY21 Budget

Council Member Pounds reviewed the goals for the workshop which included agreeing on budget assumptions and inclusions, debt obligations, the goals and projects to be funded, and discussion of worst-case scenario for reduced tourism income. He then reviewed the decisions made by City Council during the first budget workshop.

Council Member Pounds asked City Council what a completed budget looks like to them. Council members responded with clarity and long-term confidence for the public, a sound understanding of where ATAX monies can be spent, minimal debt, no property tax increase, no cuts to staff or City services, finding ways to save money, and fixing things. Council Member Buckhannon said that people like to see results and would like to delay any tax increase another year so that paid parking can be implemented and help offset the costs of some projects. Mayor Carroll said it is important that island residents understand how much they get in City services from their taxes.

Council Member Pounds reviewed the remaining existing debt, which totals just over \$6 million. If additional debt were taken on for fire trucks, the drainage outfalls, and the marina docks, it would add \$7.6 million to the existing debt.

City Council then reviewed the worksheet "Summary of Draft #1 of Budget," which indicated spending \$2 million of reserves. Possible additions to and their impact on the FY21-25 budgets were also reviewed. Additions include the inclusion of an annual CPI adjustment for employees, additional 1% of insured value for facilities maintenance in all departments, the cost of a Comprehensive Drainage Plan, in addition to many unknowns such as the costs for infrastructure repairs and improvements to the Front Beach area, the financial impacts of the new Wild Dunes Hotel and paid parking, and the impact of any reduction in tourism.

Council Member Moye noted there is no grant funding included in the budget. Administrator Fragoso said the staff will continue to pursue grant funding and search for grant writing services. Committee members briefly discussed the use of tree fund monies and matching funds from Dominion Energy.

Committee members also discussed the recent conversation regarding a community pool. Mayor Carroll shared he has received many negative comments about the City moving forward with a pool concept. While the discussion of a community pool will continue, Council Member Smith said any mention of its funding should be removed from the budget discussions. Council Member Bell added that the City needs to more effectively manage the properties it already has.

Director Kerr shared a possible plan for the repairs needed for the Waterway Boulevard multi-use path that includes an analysis done by Thomas & Hutton for \$19,000. He said staff will discuss the cost-benefit analysis of the project, adding it could be possibly be added into the Phase III Drainage project.

Committee members discussed possible revenue additions to the budget including income from the Wild Dunes hotel, a property tax increase, and paid parking. Treasurer Suggs indicated the budget already includes a 3% increase in tourism which she believes to be aggressive. Mayor Carroll said he does not want any of the paid parking to affect the residents. He also suggested contacting the Charleston County Assessor's office about reassessing the property taxes paid by the Dewees Island Marina.

Committee members briefly reviewed a spreadsheet detailing the effects 25% and 50% reductions in tourism on fund balances. Treasurer Suggs pointed out that the City has access to \$2.5 million in Disaster Recovery Funds.

After briefly discussing the possibility of a property tax increase to pay for the drainage projects, it was decided that a millage increase matching the debt service for Phase III of the drainage project will be included in the next draft of the budget.

Additional changes to the next draft of the budget would include removing any pool-related costs, keeping in the cost of the Comprehensive Drainage Plan, repairing Waterway Boulevard in FY21 with or without TST funding, adding a provision for small drainage projects.

Administrator Fragoso said that Asst. Director Asero will assess the facilities maintenance funds to determine what may or may not need to be added into the FY21 budget.

Committee members briefly discussed pay increases for employees. Council Member Buckhannon said it is important to include department heads in that discussion. Council Member Pounds suggested that the third budget workshop in April could focus on personnel-related costs.

3. **Adjournment**

The next budget workshop will be Thursday, April 16 from 4-6pm. The meeting was adjourned at 5:59pm.

Respectfully submitted,

**Special Ways & Means Committee Meeting
Budget Workshop #3
4:00pm, Thursday, April 16, 2020
City Hall Council Chambers
1207 Palm Boulevard, Isle of Palms, SC**

MINUTES

1. Call to Order

Present: Council members Pounds, Smith, Popson, Bell, Ward, Buckhannon, Moye, and Streetman, Mayor Carroll (some members participated telephonically, some were present in chambers at socially acceptable distances)

Staff Present: Administrator Fragoso, Treasurer Suggs, various City Department heads

2. Purpose – Discussion of the FY21 Budget

Council Member Pounds reviewed the goals for the workshop which included agreeing on FY20 forecast assumptions and changes, agreeing on FY21 budget assumptions and changes, determining an approval path for FY21 budget, and gaining consensus on a service delivery model moving forward. The PowerPoint presentation of all worksheets discussed during the workshops is available on the City's website under the notice of this meeting.

Committee members assumed significant revenue reductions in tourism revenue, Local Option Sales Tax, business licenses, building permits, residential rental license, parking lot revenues, and parking meter revenues. Administrator Fragoso said these projections have been culled from various sources including the CVB and MASC, and while no one can predict the future, she feels the budget reflects very conservative estimates. Treasurer Suggs pointed out that the budget can be amended as more data becomes available. She said, "What this budget says is they (projects) don't need to come out. We can do the projects that are in the budget with the worst-case scenario revenue stream and make it through. We significantly deplete tourism revenue fund balances and the Capital Projects fund balance, but the General Fund stays pretty flat and we do not tap into the Disaster Recovery Fund." Mayor Carroll noted that the City is in solid financial shape through the rest of the FY20 budget year. He said the Public Safety Building Rehabilitation Project is the only project that has to go forward at this point in time.

Council Member Pounds reported the following were discussed when reviewing the remainder of the FY20 budget: a hiring freeze, suspension of any FY20 merit increases, reduction in professional and contracted services, reduced landscaping and maintenance, no Fourth of July fireworks, reduced operating expenses across all departments, reduced capital outlay for all departments, and correcting the debt service for the 75' ladder truck.

Personnel expenses and the hiring freeze were discussed. The hiring freeze may require the City asking the County and SLED for law enforcement help in the summer depending how and when the beaches are opened. Administrator Fragoso said she is trying to get clarity on what, if any, Federal and State funds are available to help with these costs.

Administrator Fragoso said furloughs may be necessary, but she is continuing to focus on the continuation of services expected by the City's residents and what a new normal might look like. She pointed out that even if employees are furloughed, the City is responsible for paying a portion of their benefits. She also reported that City staff members, who are working staggered schedules to allow for social distancing, are shifting job descriptions and priorities to meet the needs of the City. Council Member Pounds said he did not feel as if furloughs were needed at least through the end of FY20. Several members of City Council supported Council Member Pounds' statement that no furloughs were necessary through June 30, 2020.

Looking at the overall FY21 budget, Council Member Pounds pointed out that the marina rehabilitation project and Phase III Drainage Project remain in the budget, which will both be funded with bonds (a General Obligation bond for the drainage project and a revenue bond for the marina). The bond for the drainage project leads to a 1.3 millage increase to cover the debt service. The institution of new paid parking areas and the expense to the CVB were brought up as options for significant changes in the budget.

Reviewing the summary level of the FY21 budget, Council Member Pounds pointed out the projected revenues at \$20.1 million, which includes \$6.1 million in bond proceeds for the above-noted projects, projected expenses at \$26 million, and an ending fund balance of \$11.3 million in June 2021. He noted the monies needed for the remainder of the Public Safety Building Rehabilitation Project (\$3.9 million) could be financed if cash is needed.

Committee members briefly discussed whether or not to move forward with the engineering study needed to include the repairs to the Waterway Boulevard multi-use path to the Phase III Drainage Project. Council Member Bell expressed concern about taking on additional debt in light of the current financial situation. Mayor Carroll pointed out that the marina lease requires that the City maintain the property. Administrator Fragoso said she will have more information in the coming weeks about how bids for area projects are coming in, which should give a better picture of costs to help the Committee determine if the Waterway Boulevard improvements should be included in the drainage project.

Moving forward, Committee members agreed the following are areas that need further thought, consideration, and discussion: personnel costs, particularly those not in Public Safety and Public Works, alternative service delivery models which could include consolidation of public safety services and outsourcing garbage/yard debris collection, the acceptability of the negative cash flow of the Recreation Department, an increase in property taxes, selling city-owned properties, and looking at other revenue sources.

Committee members agreed on the importance of Strategic Planning moving forward.

3. **Adjournment**

Council Member Buckhannon made a motion to adjourn, and Council Member Bell seconded the motion. The meeting was adjourned at 6:05pm.

Respectfully submitted,

April Notes:

- The City expects significant negative financial impacts from Covid-19. However, the worst of these won't likely be felt for several months because of the lag time between when economic activity happens (vacation rentals, restaurant dining, etc) and when the resulting tax revenue is received by the City. Comparing April 2020 to April 2019, the City did see declines in business licenses (\$89,000) and Hospitality Tax (\$53,000) but these should primarily be timing differences related to Council's decision to extend the due dates for these taxes to July 15, 2020. True Covid related losses included in the April results are primarily related to parking fees (\$134,000) and Recreation Dept revenues (\$21,000).
- The updated FY20 Revenue forecast reflects a \$3.8 million decline in total revenues (pg 1) due almost entirely to Covid-19 related restrictions on tourism & the widespread decline in economic activity. **This FY20 forecast is meant to be conservative** and assumes significantly less tourism activity through the end of the fiscal year (June 30, 2020). Given that vacation rental, parking and restaurant activity has resumed in May, **the City is very likely to beat this forecast.**
 - Local option sales tax forecasted to decline 75% for the remainder of FY20
 - No tourism revenues, including rental license revenues, are forecasted for the remainder of FY20
 - No parking revenues are forecasted for the remainder of FY20
 - Business License and Building Permit revenues are forecasted to decline by 25% for the remainder of FY20
- The updated FY20 Expenditure forecast reflects a \$4.9 million decline in total budgeted expenditures (pg 1). Some of these expenditure reductions were already expected (i.e. the delay in spending for the Public Safety Building until FY21), but approximately \$1.4 million of the reductions are direct results of recent efforts to scrub the budget for savings to offset the Covid-19 revenue declines.
 - \$2 million reduction due to timing of the PSB project.
 - \$1 million reduction to operating expenses
 - \$600,000 reduction in non-PSB capital spending + \$400,000 reduction in beach related expenses + \$388,000 reduction to personnel expenses

YTD April 2020 General Fund expenses are down by \$49,000 from YTD April 2019. Total City YTD April expenditures are down \$435,000 from YTD April 2019.
- The forecast for FY21 includes similar significant declines in City revenues with a slow improvement during FY21. On the expenditure side, \$1.3 million was cut from the City's FY21 budget to offset the expected Covid related revenue reductions. Draft #3 of the City's FY21 budget anticipates a decline of \$3.3 million in net revenue over expenses due to Covid-19. While most Fund Balances take a significant hit in FY21, current forecasts indicate these begin to build again in FY22. Using the current forecasts, the City's Disaster Recovery Reserve Fund is not needed to offset Covid-19 declines.
- The City currently has over \$21 million in cash deposits.

FY21 BUDGET - DRAFT #3
SUMMARY OF KEY BUDGET INITIATIVES

BUDGET INITIATIVES INCLUDED		HOW IS IT FUNDED?
1	\$3,537,000 in net losses for FY21 due to Covid-19. Significant reductions to revenue in the General Fund and Tourism Funds are included, as well as offsetting reductions to expenditures.	Based on current forecast assumptions, the predicted losses can be absorbed by existing fund balances without tapping into the City's \$2.6 Disaster Recovery Reserve Fund. The City's tourism and Capital Projects fund balances are significantly reduced.
2	\$3,904,000 to finish repair of Public Safety Building. Includes relocation costs and 3rd party inspector	Paid with cash on hand. Tourism funds will provide \$2,000,000 of the total project cost of approximately \$6,200,000 project. Assume \$2,272,000 is spent in FY20.
3	\$3,100,000 for construction of Phase 3 drainage outfall project, including the elevation and repair of the Waterway Blvd path. Assumes all expense is incurred in FY21	\$3,100,000 GO bond issued. Debt service millage increased 1.3 mils to cover the annual debt service (approx \$261,000 per year).
4	\$2,875,000 for construction of Marina docks	Issue a \$3,209,000 bond to include construction and recoating for the bulkhead. 75% of the debt service cost is covered with a Transfer-in to the Marina Fund from the State Atax Fund.
5	\$225,000 partial year (begin March 2021) of right-of-way paid parking on Palm Blvd from 21st - 57th and on 3rd - 9th Avenues.	Year 2+ revenues expected to be approximately \$500,000 per year.
6	\$334,000 to recoat Marina bulkhead	Paid with bond proceeds above.
7	\$300,000 to refurbish fire pumper truck	Paid with cash on hand.
8	\$91,662 in 1st 12 months for a 2.0% Pool for merit based employee pay adjustments. Increases are effective 1/1/21, so only half (6 months) in FY21	General Fund
9	\$250,000 for a comprehensive drainage plan	Capital Projects Fund
10	\$500,000 rebudget of small targeted drainage projects per T&H recommendations (Sparrow Dr, Forest Trail, Cross Lane, 32nd & 41st Aves)	Design & engineering will be substantially complete in FY20, but construction will not likely commence before FY21. Funded with Muni Atax.
11	\$235,830 new revenue from increased parking rates in Front Beach areas. Rates go from \$2.00 to \$2.50 per hour for on-street parking and from \$12 to \$15 per day for Saturday and Sunday parking in the lots.	General Fund Revenue
12	\$877,000 transferred into the General Fund from the Tourism Funds	Consistent with Tourism contributions in FY20: 3 Police Officers, 1 Police Sgt, 5 Firefighters, BSOs and 50% of Public Works Temp Labor and Fuel. Added \$20K from State Atax for Police OT.

WHAT IS NOT INCLUDED		DISCUSSION
1	\$500,000 for 2nd year of targeted drainage project	Not included in FY21 or FY22, but forecasted for FY23-25.
2	Renovation of Marina restaurant	The City has engaged a Real Estate consultant to direct negotiations on a new restaurant lease.
3	\$750,000 for Marina dredging	Included in the forecast for FY23 since it is unlikely that this will be necessary in FY21-22. Permitting and bathymetric study is budgeted in FY21 for \$20,000.
6	\$7,800,000 and \$11,760,000 for Drainage phase 4 and 5, respectively	
7	Costs associated with island-wide sewer project	This project would be managed and paid for by the Isle of Palms Water & Sewer Commission
8	Transfers from the General Fund to the Capital Projects Fund	Potential Covid-19 impacts on the Gen Fund leave nothing to transfer to Capital Projects in FY21

2	NOTES	
3		
5	GENERAL FUND REVENUES	
6	PROPERTY TAXES	Each forecast year increased by 1% (approx ave annual increase since reassessment/last tax increase in FY16). Reassessment expected in FY21, but assume City adjusts millage to maintain consistent revenues.
7	LOCAL OPTION SALES TAX	The remainder of FY20 and FY21 reduced by 75%-25% to reflect decline in economic activity due to Covid-19
8	PROPERTY TAX DEBT SERVICE	Each forecast year increased by 1% (approx ave annual increase since reassesmnt/last tax increase in FY16). Assumes Debt Svc millage is decreased in FY24 when Rec GO bond is fully paid. FY21 Includes \$261,000 from a 1.3 mil tax increase to fund annual debt service on \$2.9 million bond for drainage phase 3 outfall project
9	TELECOMMUNICATIONS LICENSES	
10	BUSINESS LICENSES	FY19-FY20 impacted significantly by WD constr. project. FY21 impact will be less as license fees are pd at the beginning of projects. Forecast period estimates a 1% annual increase. FY20 renewals aren't due until April 2020, so forecast for FY2000 is difficult. FY20 forecast = most recent 12 months actual less FY19 license fee paid by main WD contractor. Assume a 50% Covid19 decline for balance of FY20 and 30% decline for FY21.
11	INSURANCE LICENSES	Forecast 1% annual increases to reflect modest increases in insurance rates.
12	PUBLIC UTILITIES	This revenue a factor of utility fees paid. Comcast franchise fee was increased last year. Assume 40% Covid19 decline in electric franchise fee for FY21 (these are calculated based on prior calendar year).
13	BUILDING PERMITS	FY19-FY20 impacted significantly by WD constr. project. FY21 impact will be less as building permits are paid at the beginning of projects. FY20 forecast calculated as last 12 months actual less large permit fee for WD project that was included in FY19 revenues. Assume a 50% Covid19 decline for balance of FY20 and 30% decline for FY21.
14	ANIMAL LICENSES	
15	RESIDENTIAL RENTAL LICENSES	Forecasted revenues projected to increase by 2% per year. Added \$10,000 as a conservative estimate of revenue from new Wild Dunes hotel starting in FY22. Assume no more collections for FY20 and a 40% decline in FY21.
16	TRANSPORT NETWORK CO FEE	
17	COURT GENERATED REVENUES	Hard to forecast as this is a function of tickets written and those are hard to predict. Assume a 75% decline for the remainder of FY20 and a 40% decline for FY21 due to decreased calls & tourism activity.
18	INTERGOVERNMENT TRANSFERS	
19	GRANT INCOME	
20	STATE SHARED FUNDS	
21	STATE SHARED FUNDS-ALCOHOL	This is the Sunday alcohol license fee paid by island businesses. Assume a 50% decline in FY20 and FY21 due to Covid19 impacts.
22	MISCELLANEOUS	
23	PARKING LOT REVENUES	Increased daily rate in municipal parking lots to \$15/day on Saturday and Sunday. No change to the Monday - Friday daily rate of \$10. This is consistent with IOP County Park rates. Reduced by 5% in FY21 because PSB trailers are using space in the small lot. Assume no more revenue in FY20 and 25% decline for FY21 due to Covid19 impacts.
24	SALE OF ASSETS	
25	INTEREST INCOME	
26	REC. INSTRUCTORS INCOME	Assume no more revenue in FY20 and 25% decline for FY21 due to Covid19 impacts.
27	REC. PROGRAM INCOME	Assume no more revenue in FY20 and 25% decline for FY21 due to Covid19 impacts.
28		
29	KENNEL FEES	
30	STATE ACC TAX ADMIN FEE	Follows forecast estimates for State Atax. FY20 and FY21 negatively impacted by Covid19
31	PARKING METER REVENUE	Increased hourly rate for street kiosks to \$2.50/hr beginning in March 2020. Assume no more revenue in FY20 and 25% decline for FY21 due to Covid19 impacts. Added \$225,000 in FY21 and \$500,000 in FY22-25 for new island wide paid parking (Palm Blvd 21st-57th and 3rd-9th Aves)
32	CART PURCHASE REVENUE

* Marina bonds must be taxable, which typically means a higher estimated interest rate. Preliminary discussions contemplated using a revenue bond for the Marina dock replacement, but in the current economic climate, a GO bond would likely get the best interest rate.

- Alignment and Accountability

How the Riley Center Can Make a Difference

① Engagement

The Riley Center has the professional experience to overcome one of the foremost *initial challenges* of any Strategic Planning process - how to design and structure the process to effectively engage the City Council and stakeholders.

② Alignment

A second *frequent challenge* is ensuring that the Strategic Plan aligns with the Isle of Palms' financial resources.

③ Accountability

The Riley Center has the technical expertise to help Isle of Palms meet the most frequent ongoing challenge of the process - how to ensure that the Strategic Plan links to the comprehensive plan, capital, and operating budgets.

The Strategic Planning Process

Environmental Scan

The environmental scan will identify the major forces that will drive issues facing Isle of Palms, including demographic and economic factors.

Demographics

- Economic Clusters

Strengths, Weaknesses, Threats, and Opportunities

The Riley Center will assist the community in analyzing and refining the data from the Environmental Scan to identify key strengths that can support the Strategic Plan, weaknesses to be addressed, threats that may require contingency planning, and alternative strategies.

Strengths

Strengths may feature tourism, climate, concentration of facilities, cultural resources, educational institutions, recreational amenities, natural resources such as beaches, and other unique attributes of the Isle of Palms.

Weaknesses

Weaknesses to address might include population trends, income characteristics, travel patterns, the economy, and infrastructure.

Threats

Threats might include loss of major employers, impact of an economic downturn, and sea level rise.

Opportunities

Opportunities include housing, historical assets, underutilized resources, and location and natural beauty.

Vision and Mission

Development of the Vision Statement

The Riley Center will help
facilitate development of the
community's Vision
statement.

Development of the Mission Statement

The Riley Center will help
facilitate development of the
local government's Mission
Statement.

Implementation

Strategies and Tactics

The Riley Center can assist the community in identifying strategies to facilitate the Strategic Plan, develop tactics to ensure all steps are identified to accomplish the chosen strategies, and help the community identify how to best align available resources around these strategies and tactics.

Implementation Plan

The implementation plan must identify the resources required, where to obtain them, and how to utilize them.

Accountability

The Riley Center can assist in helping staff align the strategic plan with the comprehensive plan, operating, and capital budgets and departmental work plans.

Memo

To: Desiree Fragoso, City Administrator

From: Chief Ann Graham, Fire Chief

Date: February 24, 2020

RE: Mobile Radio Upgrades

As you are aware, the Fire Department replaced all walkie talkies 4 years ago. Fire Department radios were subjected to harsh conditions, especially on water missions.

The County was able to work out special pricing in anticipation of all agencies replacing walkies and mobiles at the same time. The special pricing is considerably lower than State Contract (25%) and ends on June 30, 2020.

Most agencies within Charleston County ordered walkies and mobiles in 2019. The new radios included upgrades that were either not available or not in use at the time of our purchase 4 years ago. The cost to upgrade the 40 Fire Department walkie talkies is \$28,690.68. The FY20 budget includes \$7,500 for radio maintenance contract and \$10,000 for accountability. The difference is \$11,190.68 which could be absorbed with the funds allocated in the FY20 Budget for mobile radio replacement with failure. The FY20 Budget includes \$25,000 in Capital Projects for this. I plan to purchase 4 mobiles this year for \$14,372.08 leaving a balance of \$10,627.92 which could be allocated to cover the difference of \$11,190 for the mobile upgrades.

The upgrades will include the following:

- OTAP (Over the air programming) – Having this capability will save a significant amount of time with programming and flash upgrading for the radios. Flash upgrades would happen automatically and wouldn't be required to be performed manually which would save time and resources. The updates are like keeping a computer up to date.
- Group services - Group services are linked to OTAP.
- GPS Tracking. This will assist with accountability of personnel and equipment. The radio will be tracked to its last known location until the battery dies. The location of the walkie will be recorded by Charleston County.

Average Loss per Day	140	151
# of Days Project was delayed	34	34
ESTIMATED RENT ABATEMENT	4,749	5,132

DISCUSSION:

The delay in the underground fuel storage tank replacement project meant that the Marina Market was unable to sell auto fuel for a longer period of time than expected. While a temporary gasoline fuel tank was in place to service the MJV boat fueling operation, there was no diesel fuel tank, so a loss was experienced for longer than expected in MJV diesel sales.

The staging area for the UST replacement project reduced the amount of space MJV had for dry storage for a longer period of time than expected.

ISLE OF PALMS POLICE DEPARTMENT

DRAFT POLICY

DRONES – UNMANNED AIRCRAFT SYSTEMS

Drones Unmanned Aircraft Systems	Related Policies:
<i>This policy is for internal use only and does not enlarge an employee's civil liability in any way. The policy should not be construed as creating a higher duty of care, in an evidentiary sense, with respect to third party civil claims against employees. A violation of this policy, if proven, can only form the basis of a complaint by this department for non-judicial administrative action in accordance with the laws governing employee discipline.</i>	
Date Implemented:	Review Date:

- I. Purpose:** A drone's ability to reach inaccessible or dangerous locations has an advantage over manned helicopters because they eliminate the risk to human life. UAS have the potential to help in search and rescue missions by covering more ground and keeping police officers safe by providing an eye in the sky in dangerous situations. The UAS (Unmanned Aircraft System) will be used to enhance public safety and in assist law enforcement search and rescue operations.
- A. Tactical Operations:** The UAS will be used to enhance and support tactical operations should a request for assistance be made and approval authorized. SWAT (Special Weapons and Tactics) and narcotics operations, and detectives during the execution of warrants, may utilize UAS to provide real time situational awareness of the target during high risk operations. The ability to provide this aerial view may enhance officer safety and document movements of officers and civilians.
- B. Search and Rescue:** Unmanned systems equipped with a thermal / optical camera and multi-sensor navigation systems are designed to find people in rugged outdoor environments. The ability to use this aircraft to search large areas quickly using the attached technology equipment will improve the resolution of search and rescue operations.
- C. Crime and Collision Scene:** The UAS can also be used for crime scene over watch; as well as, used to document and record crime scenes and accident scenes.
- II. Policy:** It is the policy of this agency to use UAS in coordination with law enforcement officers conducting specific missions as guided by the Certificate of Authorization (COA) issued by the Federal Aviation Administration (FAA). This policy is designed to minimize risk to persons, property, and aircraft during the operation of the UAS while safeguarding constitutional protections and privacy interests of all persons.
- III. Definitions:**
- A. UAS:** Unmanned Aircraft Systems.
- B. Operator (Unmanned Aircraft Pilot):** The individual responsible for the overall flight operations of a specific mission.

- C. Observer:** Monitor the flight characteristics of the aircraft while in communication with the operator to ensure proper flight and that the aircraft remains clear of obstacles and low flying air traffic. The individual responsible for the operation of all camera and remote sensing functions during UAS operations.
- D. COA:** For public operation, the FAA issues a Certificate of Authorization or waiver that permits public agencies and organizations to operate a particular UAS for a particular purpose, in a particular area. The COA allows an operator to use a defined block of airspace and includes special safety provisions unique to the proposed operation. COAs usually are issued for a specific period – up to two years in many cases.

IV. Procedures:

- A.** When the UAS is being flown the onboard cameras will be turned so as to be facing away from occupied structures, etc to minimize inadvertent video or still images of uninvolved persons.
- B.** All video and still images will be maintained in strict compliance with Agency policies and procedures and State of South Carolina Records Retention Act.
- C.** The UAS unit will not conduct random surveillance activities. The use of the UAS will be tightly controlled and regulated the Chief of Police or their designee.
- D.** The authorized missions for the UAS are:
 - a.** Video/photographs for investigative support (Homicide Scene, SWAT)
 - b.** HAZMAT Response
 - c.** Search and Rescue
 - d.** Barricaded persons / Hostage situations / Active Shooters
 - e.** Traffic collisions
 - f.** Disaster Response (Floods, Tornado Damage, etc.)
 - g.** Bomb Threats
 - h.** All other requested uses will be approved by the Chief of Police or their designee prior to deploying the UAS.
 - i.** If UAS is going to be used over a residential property for an investigation a warrant shall be obtained unless the UAS Commander can articulate probable cause that exigent circumstances exist. The warrant should be obtained as soon as practical.
- E.** The UAS program will operate strictly within the law and regulations. If in doubt, prior to operating the UAS the Chief of Police or their designee will ensure that warrants are applied for and obtained. The agency will balance all operations with the need to accomplish the mission while maintaining public privacy and the, freedom from intrusion.
- F.** A committee will be formed and meet at least annually, or when legal or regulatory issues arise, for the purpose of reviewing the existing UAS policy and procedures as well as new technologies and laws and regulations on UAS usage. The committee chaired by the Chief of Police or their designee will consist of personnel from UAS unit such as the UAS Unit Supervisor, Operators and Observers, Professional Standards / Internal Affairs, Special Services, Detectives and Patrol representatives, civilians who

have specialized knowledge of UAS operations such as the Manufacture or FAA representatives. A copy of the policies and procedures (electronic and/or paper) will be issued to every person having UAS responsibilities.

V. Personnel:

- A.** The Chief of Police shall be or will designate a supervisory level officer to be the UAS Unit Supervisor. The Supervisor shall report directly to the Chief of Police or their designee in reference to matters involving the department UAS. The UAS Supervisor shall be responsible for the overall direction and performance of the UAS unit.

B. Responsibilities:

- a.** Selection of UAS personnel
- b.** Maintaining all training, flight and maintenance records for each operator and observer as well as individual airframes,
- c.** Maintain contact with the FAA and regulations as they change, calling for committee meeting when necessary to maintain up to date policies and procedures.
- d.** Evaluate airframes based on mission needs.
- e.** Maintain a current class II flight physical and proficiency on all UAS operated by the unit.
- f.** Prepare a written "After Action - Mission Report" and brief the Chief of Police or their designee.

C. Operators:

- a.** An operator's primary duty is the safe and effective operation of UAS in accordance with the manufacturers' approved flight manual, FAA regulations and agency policy and procedures. Operators must remain knowledgeable of all FAA regulations COA; UAS manufacturer's flight manual and bulletins and Agency policy and procedures.
- b.** Operators may be temporarily removed from flight status at any time by the UAS Supervisor, or the Chief of Police for reasons including performance, proficiency, physical condition, etc. Should this become necessary, the operator will be notified verbally and in writing of the reason, further action to be taken and expected duration of such removal.

- D. Observers:** must have been provided with sufficient training to communicate clearly to the operator any turning instructions required to stay clear of conflicting traffic. An observer's primary duty is to operate the UAS's equipment including cameras, FLIR, radio communications with patrol units as well as be an observer for anything that may affect the operator's primary duty (see and avoid).

VI. Outside Jurisdiction - Request for Support – Mutual Aid:

- A.** Requests for support from other government agencies within, or outside the jurisdiction of this agency will be forwarded to the UAS Supervisor who after consideration will either deny the request outright because the request is clearly outside the policy of the agency or forward the request to the Chief of Police or their designee for approval for use of the UAS. Proper policy and procedure, as well as FAA regulations shall be followed when accepting mutual aid support for the UAS.

VII. Safety: The Isle of Palms Police Department is committed to having a safe and healthy workplace, including:

- A.** The ongoing pursuit of an accident free workplace, including no harm to people, no damage to equipment, the environment and property.
- B.** A culture of open reporting of all safety hazards in which management will not initiate disciplinary action against any personnel who, in good faith, disclose a hazard or safety occurrence due to unintentional conduct.
- C.** Support for safety training and awareness programs.
- D.** Conducting regular audits of safety policies, procedures, and practices
- E.** Monitoring the UAS unit to ensure best safety practices are incorporated into the unit.
- F.** It is the duty of every member within the UAS unit to contribute to the goal of continued safe operations. This contribution may come in many forms and includes always operating in the safest manner practicable and never taking unnecessary risks. Any safety hazard, whether procedural, operational or maintenance related should be identified as soon as possible after, if not before, an incident occurs. Any suggestions in the interest of safety should be made to the UAS Supervisor.
- G.** If any member observes, or has knowledge, of an unsafe or dangerous act committed by another member, the UAS Supervisor is to be notified immediately so that corrective action may be taken.
- H.** Regarding safety, all members of the UAS unit are responsible for the following:
 - a.** Ensuring all flight operations personnel understand applicable regulatory requirements, standards and organizational safety policies and procedures.
 - b.** Observe and control safety systems by monitoring all operations.
 - c.** Review standards and the practices of agency personnel as they impact operational safety.
 - d.** Communicate all reported safety related problems and the corrective action taken. If there were any in-flight problems (or learned experiences)
 - e.** Reading and understanding all pertinent safety information.

- f. Reading and understanding all emergency safety bulletins.
- g. It is emphasized again that safety is the responsibility of ALL members of the UAS unit.

VIII. Medical Factors:

- A.** Operator and Observers shall only deploy the UAS when rested and emotionally prepared for the tasks at hand.
- B.** Physical illness, exhaustion, emotional problems, etc., can seriously impair judgment, memory and alertness. The safest rule is not to act as an operator or observer when suffering from, any of the above. Members are expected to "stand down" when these problems could reasonably be expected to affect their ability to perform flight duties.
- C.** A self-assessment of physical condition shall be made by all members during pre-flight activities.
- D.** Performance can be seriously hampered by prescription and over the counter drugs. Many medications cause drowsiness and hamper sound decision making abilities and reaction. The UAS Supervisor will be advised anytime such drugs are being taken. If it is determined that the medication being taken could hamper an operator or observer, that member shall be prohibited from the deployment or exercise.
- E.** No member shall act as an operator or observer within eight hours after consumption of any alcoholic beverage, or while under the influence of alcohol.

IX. Operational Hazard and Occurrence Report (OHOR) and Investigations

- A.** Occurrences are unplanned safety related events, including accidents and incidents that could impact safety.
- B.** A hazard is something that has the potential to cause harm. The systematic identification and control of all major hazards is foundational to safety.
- C.** The **OHOR** concept provides a mechanism to report hazards and occurrences, real and perceived, to those responsible for UAS operations.
- D.** There is no specific **OHOR** form. The information provided is what is important. Incidents should be documented without hesitation to report any anticipated, current, or experienced safety hazard, or occurrence. Further, the **OHOR** can be submitted by any member of the department, may be submitted anonymously, and can be submitted to whatever level in the chain of command of this agency to get the matter proper attention, without fear of reprisal.

- E.** Every hazard and/or occurrence will be investigated, with the results and corrective action taken communicated to all members. The investigation will be conducted by the UAS Supervisor and a designee of the Chief of Police who has authority over internal investigations. Due to the technical aspects of the UAS operations an independent subject matter expert may be necessary in some cases to assure a thorough and complete investigation.
- F.** ALL UAS MEMBERS ARE AUTHORIZED TO TAKE ACTION TO CORRECT A HAZARD if in that member's opinion delay will result in accident or injury. The UAS Unit Supervisor will be notified immediately in such situations.

X. Training:

- A.** The key to continued safe operations is by maintaining a professional level of competency. The first step in this process is establishing minimum qualifications for selecting members, and the second step involves training those personnel.
- B.** In conjunction with fulfilling all FAA requirements for operator/observer duties, the new member will also become familiar with the agency UAS operations, and its related equipment.
- C.** Before a member can fly as an operator, they must complete at least 8 hours of flight training with the UAS instructor(s) to show proficiency of the flight training exercises and the airframe. This must be accomplished to show their ability and knowledge of the UAS in compliance with the manufacture's manual and instructions.

XI. Call Out Procedures / Use of the UAS:

- A.** When feasible a supervisor will screen all initial requests to use a UAS from patrol or investigation units. All reasonable requests will be forwarded to the Support Services Captain for consideration.
- B.** The Support Services Captain will screen the request using the following factors:
 - a.** Is the proposed use of UAS within the capabilities of the UAS equipment and personnel to perform?
 - b.** Does the proposed use of the UAS fall within the FAA and department policies and regulations for UAS usage?
 - c.** Can the UAS be deployed safely given current weather conditions?
 - d.** If the UAS deployment requires a warrant has one been requested and approved?
 - e.** Are sufficient trained and qualified personnel available to safely operate the UAS?
- C.** The Support Services Captain will either accept or decline the request for UAS support. If the UAS Unit Commander accepts the support request he/she will contact the Chief of Police or their designee for final authorization or denial.

- D. If the Chief of Police or their designee accepts the support request the UAS Supervisor will contact a UAS operator and observer who will be provided all available mission information.
- E. The UAS operator is responsible for transporting the UAS and all required equipment to the scene. Upon arriving at the requested location the UAS operator will contact the on scene Incident Commander and will check in and receive a briefing on the mission requested. The UAS operator will make an on-scene determination of the ability of the UAS to perform the requested mission safely and within department and FAA policies and procedures.
- F. If the UAS operator determines that the use of the UAS would violate department policy or directives then the UAS operator will inform the Incident Commander of the potential conflict along with recommendations for modifying the requested mission to conform to the department policies and procedures. As this is a change from the original approved mission the UAS operator will contact the UAS Supervisor for direction on how to proceed. As soon as possible after the completion of the mission, the UAS operator will make a full report of the circumstances and their concerns to the UAS Supervisor.
- G. UAS operators will have sole discretion for declaring safety or violation of FAA rules. If the UAS operator determines that a requested mission would violate FAA rules or endanger civilians, then the UAS operator will respectfully inform the Incident Commander of the reasons for refusing to operate the UAS and contact the UAS Supervisor immediately. **The UAS will not be flown in this circumstance and the authority of the UAS operator is absolute.**
- H. If the UAS operator determines that the requested mission will potentially damage the UAS or its associated equipment the UAS operator will inform the Incident Commander of their concerns. The UAS operator will contact the UAS Supervisor as this is a deviation of the originally, approved mission, The UAS operator will fully document in the After Action Report and will submit a copy to the UAS Supervisor.
- I. **The UAS shall not be used for the purpose of random surveillance.**
- J. If several separate requests for UAS support are received simultaneously, they shall be prioritized. In general terms, requests for UAS support are prioritized as:
 - a. Life Safety
 - b. Evidence / Documentation

XII. Flight Boundaries:

- A. Although there may be requests for UAS support outside the jurisdiction of this agency the FAA Certificate of Authorization (COA) for the UAS restricts deployment to certain areas.

- B. At no time shall UAS support be granted outside this agency's jurisdiction without first obtaining an emergency FAA COA and approval by the UAS Supervisor.
- C. Maximum altitude shall not be set more than **400 feet** per the FAA COA.
- D. Line of Sight: All UAS operations shall be conducted within line of sight of the Operator or observer such that the Operator or Observer may detect and avoid hazards such as aircraft or property.

XIII. Minimum Personnel Requirements:

- A. Due to the nature of the law enforcement mission, the minimum personnel required on ALL missions will be an operator and observer. Under no circumstances will an operator attempt to complete a deployment alone.
- B. Although training is not considered a mission, an observer shall be used.

XIV. OPEN COMMUNICATION ACHIEVES SAFE OPERATIONS:

- A. The operator is directly responsible for and is the final authority over the actual operation of the UAS.
- B. Operators have absolute authority to reject a flight based on personnel safety or violation of FAA regulations. No member of this agency, regardless of rank, shall order an operator to make a flight when, in the opinion of the operator, it poses a risk to personnel or is in violation of FAA regulations.
- C. Operators are responsible for compliance with manufactures user's manual, department policy and procedure and FAA regulations.
- D. The operator's main duty during the deployment of the UAS is to operate the UAS safely while accomplishing the goals of the deployment.
- E. Operators shall see-and-avoid any obstacle that will lessen safety during the mission.
- F. Operators shall be responsive to the requests of the observer in order to accomplish the deployment.
- G. Operators shall be responsible for documentation for their mission training and updating of their flight books.
- H. Observers shall see-and-avoid any obstacle that will lessen safety during the mission.
- I. Observers are responsible for the law enforcement aspect of the deployment.
- J. Observers shall operate any attachments to the UAS, allowing the operator to maintain complete focus on the operation of the UAS unless the drone model does not provide the opportunity to do so from a second controller.

- K. Observers shall remain alert for suspicious persons or activities on the ground and coordinate response by ground units.
- L. Observers shall monitor the radio updates.
- M. Observers shall assist the operator in the main objective of safe operations of the UAS.
- N. Observers shall be responsible for documentation for their mission training and updating of their flight books.

XV. Personal Equipment:

- A. Operators/Observers shall wear eye protection at all times while the UAS is in flight.
- B. Although there is no specific uniform for the UAS unit or required for proper operation of the UAS, the operator/observer should take necessary measures to deploy in a professional manner. Operators and observers shall wear clothing that easily identifies them as members of this agency.
- C. Operators/Observers will take into consideration the current weather conditions when planning to deploy and wear appropriate clothing to deploy comfortably.
- D. Use of the radio, cell phone or other device is strictly prohibited **by the operator** during flight per the COA.

XVI. Pre-Flight/Post-Flight Actions:

- A. Operators/Observers are both responsible for a thorough preflight inspection of the UAS.
- B. Before and after each deployment (whether an incident or training), the operator and observer shall conduct a thorough inspection of the UAS in accordance with the instructions contained in the manufactures user's manual.
- C. Any issues found that will put in jeopardy the safe operation of the UAS shall be documented and resolved immediately prior to flight.
- D. It has been recognized that the use of a checklist is a significant method to combat UAS accidents. A pre-flight and post-flight checklist will be conducted in accord with the manufactures instruction and will be utilized prior to each flight.
- E. Any physical equipment that cannot be resolved on-site, and which have an impact on safety or the mission, will override the deployment. These issues will be resolved before flight.

XVII. Weather:

- A.** Before each deployment the operator/observer will ensure that he/she gathers enough information to make themselves familiar with the weather situation existing throughout the area of deployment. The operator shall utilize FAA approved weather resources to obtain the latest and most current weather conditions.
- B.** An anemometer or wind meter should be utilized in order to better estimate the wind speed and determine if it is within the capabilities of the airframe being flown.
- C.** Operators/Observers should use the Beaufort Scale when making deployment decisions in regards to wind conditions. This scale can be located in the manufacture's user's manual.
- D.** The weather conditions reported for the operation shall be recorded in the flight log.
- E.** The operator shall ensure that the flight will occur within FAA VFR (Visual Flight Rules) weather requirements.
- F.** Inspection and weather will be documented prior to flight within the logbook.

XVIII. Planning:

- A.** The operator/observer shall familiarize themselves with all available information concerning the deployment including, but not limited to, the weather conditions, hazards, description of the incident, deployment goals, etc.
- B.** Operators will ensure that the location for take-off and emergency landing is adequate for a safe deployment.
- C.** The take-off/landing location should be clearly marked and identifiable.
- D.** At least one emergency landing area should be identified per deployment.
- E.** Operators will ensure that they are aware of their surroundings in the event that an emergency landing is necessary. This includes the ability to recover the UAS.

XIX. Documentation:

- A.** After each flight, the operator will complete an After-Action Report documenting the UAS operations.
- B.** After each deployment, all video containing an evidentiary value that is obtained by the UAS Operation will be submitted to evidence in accordance with Agency policy.
- C.** Aerial photography (still or video) shall be stored in accordance with Agency policy and procedure in the same manner as the motor vehicle in-car camera video and State of South Carolina Records Retention Act

- D. The operator of the UAS is responsible for evidence handling as well as writing any supporting documentation for the incident.

XX. Maintenance:

- A. Although there are few parts on the UAS that need servicing, it is necessary that the manufacturer's maintenance schedule is followed and properly documented.
- B. Any issues that arise during maintenance that cannot be resolved by routine methods shall be forwarded to the manufacturer for further technical support.
- C. Maintenance and service records associated with the UAS shall be maintained by the UAS Supervisor.
- D. Operators and/or Supervisors of Unmanned Aircraft Systems (UAS) shall maintain manufactures software updates and or operating requirements.

Re: Changing the Method of Election-Number of Council Members
Date: February 24, 2020

Change in Form of Government:

SECTION 5-15-30. Procedure for **changing number** of or method of election of council members.

If by action of a majority of council, or if fifteen percent of the registered municipal electors present to the municipal election commission a duly executed petition on which none of the signatures is more than six months old, **in which an election is sought to change the number of council members to a number authorized by the form of government under which the municipality is then operating** or to change the method of election of council members, **then the municipal governing body shall call a referendum not later than ninety days nor earlier than thirty days after the petition has been certified and delivered to the governing body by the municipal election commission.** A petition must be certified as valid or rejected by the municipal election commission within sixty days after it has been delivered to the commission. **There may be only one question framed by the municipal governing body for the referendum in a format similar to that provided by Section 5-5-40, and no other election on the same question may be held for two years after that time.** If more than one petition is received before publication of a notice of special election, the change sought in the petition bearing the highest number of qualified signatures must be submitted on the ballot. **A change receiving a majority of the votes cast is effective at the next general election of the municipality.**

With regard to the timing of the Referendum:

Estimated Timeline to meet the November General Election deadline:

June 30, 2020:	First reading of referendum question
July 28, 2020:	Second reading of referendum question
August 5, 2020:	90-day deadline to file Referendum question with Patrick Lee (Charleston County Board of Elections Deputy Director)
September 4, 2020:	60-Day deadline to file Referendum with Patrick Lee.
November 3, 2020:	General Election Day
