Mr. And Mrs. Phil and Mary Cogbill

**Address**

7 Marsh Island Lane, Isle of Palms, South Carolina 29451

**Comments for Council Meeting**

Please do NOT renew the lease for Tidal Wave Sports! The jet skis are a nuisance and a significant hazard. We live on the Marsh side of the island and the jet skiers frequently are careening down the narrow creeks almost swamping small boats, likely damaging docks with their wakes and eroding the banks of the marshes. Not to mention the awful noise. Most jet ski renters are also highly arrogant and often times dangerous. Although they are supposed to stay 500 yards from the beach one group had a jet ski near the Property Beach House and would drive it up to the beach so they could take turns riding it despite many small children playing in the surf. Finally one woman decided it would be fun to do tight circles in the surf at high speed. We rescued our grandson so he wouldn't be injured or killed and my took a video of the person doing this. She said some very rude things to my wife and was totally unapologetic. We called DNR and thankfully they sent someone out quickly and they cited them and watched to be sure they safely left the beach. We should not have to go through this to have a safe, relatable on our beach or marshes. Tidal Wave Sports is a public nuisance and needs to go!!
