Comments for Council Meeting

We have a right to access the entire public beach. Not just designated sections. Parking at 40th and 41st should be restored and back in parking should be restored so the beach spaces open back up to the number there were before. You complain the population is growing yet your solution now to reduce parking which is completely illogical. You reduced parking I the most desirable oatlrts of the island by half whibnis an overreach of authority and should be overruled. You are clearly using this as a cover to try and privityze a public area. You chose to purchase a home a live in a desired recreation area, so you should deal with and support the visitors that patronize the business on the island and have a right to use the entire beach. Bybth way I would like to know how many people actualky got injured parking back in or crossing the street at the corner of 41st? Zero? So a rule to address nothing but elitist actions.

Meeting This Comment is Intended For:

Public Safety Committee
